

Is dailyhunt.in legit? TrustSniffer's high-trust assessment: 94/100

dailyhunt.in

Verdict

94

OUT OF 100

HIGH TRUST

dailyhunt.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-13 by automated analysis. Classification confidence 75%.

What this site appears to be

Consent/Privacy choices UI for Dailyhunt describing purposes, vendor list, cookie durations and options for personalized advertising and content measurement. Heavy use of third-party ad vendors and tracking indicated.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Dailyhunt.in is an established news and content aggregation website presenting personalized updates in 14 Indian languages, with an apparent ad-supported business model based on content personalization, advertising, and related audience measurement.

Scam/Impersonation Risk

No contradictions were observed. The available evidence does not indicate phishing, brand impersonation, malicious content, or financial-fraud mechanics: the captured news page contained no login form, hidden sensitive form, wallet connection, or suspicious brand-use indicator. External reputation checks returned no malicious or suspicious detections, and the domain shows sustained registration and archival continuity consistent with an established site rather than a newly created or repurposed operation.

EVIDENCE

- The news page was classified as a legitimate news/media page with no detected phishing, impersonation, crypto, or sensitive-form indicators.
- Major external reputation checks recorded 0 malicious detections and 0 suspicious detections; the site was ranked 11523 and was within the top 1 million websites.
- Registration continuity records show the domain was registered on 2015-04-15 and is approximately 11.34 years old.
- Web archives contain 445 snapshots spanning 2015–2026, with 12 years tracked.

Regulatory Verification Notes

The site presents as a media and advertising service rather than a regulated financial provider. The supplied page material does not independently verify the real-world operator identity, and no licensing claim or license number is present; for this apparent business model, that is a transparency item for ordinary corporate and privacy due diligence, not evidence of a scam. The consent interface states that personal data may be processed by 203 partners, including for personalized advertising, content measurement, audience research, and potentially precise geolocation, so data-use preferences warrant review before consent is granted. Registration records provide a useful administrative linkage but do not, by themselves, prove operational control or legal identity.

EVIDENCE

- The registration record lists Eterno Infotech Pvt. Ltd. as the organization, GoDaddy.com, LLC as registrar, and an expiration date of 2028-04-15.
- Hosting resolves through AS396982, Google Cloud Platform – Google LLC, US.
- The site uses a DV TLS certificate issued by Go Daddy Secure Certificate Authority – G2, valid through 2026-12-05.
- The consent interface identifies 203 data-processing partners and provides controls to consent, refuse, or manage purposes.

What to Verify Next

Before credential or payment interactions, an organization should independently match the stated registrant to current corporate information and confirm that the intended service is reached through an official, independently sourced channel. Privacy-sensitive users should review the consent purposes, partner disclosures, and withdrawal controls before accepting personalized advertising. Any commercial transaction should also be checked against independently obtained merchant identity, return-policy, and payment-protection information.

EVIDENCE

- Domain registration records provide an organization name and registrar suitable for independent corporate and domain-control checks.
- The consent interface supplies purpose and partner information that can be reviewed against the site's privacy and cookie disclosures.
- The available identity linkage remains unverified, making independent confirmation appropriate before sensitive account or payment activity.

Summary Verdict

Dailyhunt.in presents a high-trust, low-risk posture and is apparently an established, legitimate website based on converging content, reputation, registration-continuity, and technical evidence. The available evidence supports normal browsing and ordinary site interaction, while the real-world operator identity remains unverified rather than proven.

Infrastructure Integrity

The site is hosted on Google Cloud Platform through AS396982, with one resolved likely origin address and no separate CDN edge layer detected. Google Cloud hosting and the valid mainstream TLS deployment are mitigating infrastructure signals, but they are not independent proof of operator legitimacy.

Closing Assessment

Ordinary use is proportionate to the available risk posture, subject to independent merchant-identity, return-policy, and payment-protection checks before credentials or payment details are submitted.

Written analysis generated 2026-08-13 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of dailyhunt.in.

- The request stayed on dailyhunt.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by akam.net, across 6 name servers. NOTED
- The registration is paid up to 2028-04-15. CLEAR
- The earliest public archive of this site is from 2015-08-13. CLEAR
- It is hosted on GOOGLE-CLOUD-PLATFORM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dailyhunt.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a

legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
