

Is deledao.com legit? TrustSniffer's high-trust assessment: 100/100

deledao.com

Verdict

100

OUT OF 100

HIGH TRUST

deledao.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-01 by automated analysis. Classification confidence 60%.

What this site appears to be

Deledao presents an established education technology suite for K–12 schools, including AI-powered web filtering, classroom management, and student wellness monitoring. The page highlights product capabilities, testimonials, case studies, resources, compliance, and requests for demonstrations.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Deledao is an established education-technology provider presenting a K–12 software suite comprising ActiveScan™ web filtering, ActiveInstruct™ classroom management, and ActivePulse™ student wellness monitoring, marketed through direct and reseller subscriptions with request-a-demo conversion.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent B2B education-technology model, identifies products and reseller arrangements, and provides product, resource, company, privacy, security, and sign-in pathways without sensitive forms or credential-harvesting behavior. Its claims—such as real-time detection of embedded games, self-harm indicators, and inappropriate videos—are substantive product assertions rather than evidence of deception.

- The homepage identifies ActiveScan™, ActiveInstruct™, and ActivePulse™ and describes their K–12 functions.
- The homepage contains no sensitive submission form, hidden form, or external password form.
- The domain was registered in 2017 and has 8.63 years of registration history; archival coverage records 113 snapshots across 9 tracked years from 2018-11-07 through 2026-04-10.

Regulatory Verification Notes

The legal and governance surface includes Terms of Use, Privacy Policy, Security and Data Privacy, About Us, Contact Us, Careers, and Partners pages. No financial-services licensing claim is relevant to the described software model, but the supplied material does not establish an independent regulatory registration; this is a routine transparency point for procurement review, not an indication of fraud. The registration record names Amazon Registrar, Inc., while the site's established content, clean external reputation, and sustained historical continuity support its identity as a genuine software provider.

- The domain registration record lists Amazon Registrar, Inc.; creation date is 2017-12-16T19:44:42Z and expiration date is 2026-12-16T19:44:42Z.
- The site is served from AS58182 (Wix.com Ltd., IL).
- TLS is issued by YR2 at DV validation level and is valid to 2026-09-18T09:15:02+00:00.
- The site holds a Tranco rank of 26232 and is within the top 1 million domains.

What to Verify Next

For institutional procurement, confirm the contracting legal entity, data-processing terms, security commitments, and any applicable education-sector compliance obligations through the company’s formal sales and legal channels. Independently confirm that reseller relationships and support routes correspond to the current arrangements stated on the site.

- The homepage links to Security and Data Privacy, Privacy Policy, Terms of Use, Contact Us, and Partners pages.
- The homepage states that the products are sold directly and through resellers and identifies a change affecting Hapara reseller access from September 1, 2025.

Summary Verdict

The website presents a legitimate, established, and trustworthy enterprise software presence with no observed contradiction or deception pattern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is hosted on Wix.com Ltd. infrastructure, providing a mainstream managed delivery layer that reduces direct exposure of the underlying service environment. This infrastructure is a mitigating technical signal, not independent proof of business legitimacy.

Closing Assessment

Proceed with normal business interaction, while applying standard institutional procurement and data-protection checks before entering a formal service agreement.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of deledao.com.

- The request stayed on deledao.com. It was not redirected to another domain. CLEAR
- Registration is published under Amazon Registrar, Inc.. CLEAR
- DNS for this domain is served by awsdns-25.org, across 4 name servers. NOTED
- The registration is paid up to 2026-12-16. NOTED

- The earliest public archive of this site is from 2018-11-07. CLEAR
- It is hosted on wix_com, from a server in IL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about deledao.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
