

Is depkr.if.ua safe? TrustSniffer's low-trust assessment: 40/100

depkr.if.ua

Verdict

40

OUT OF 100

LOW TRUST

depkr.if.ua is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Municipal department page (Івано-Франківська міська рада) describing departments, services, legal acts, open data and contact information; appears informational and non-commercial.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

http://depkr.if.ua/

What depkr.if.ua served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website presents itself as the Department of Communal Resources and Agriculture of the Ivano-Frankivsk City Council, offering municipal information on land relations, communal property, agriculture, legal acts, public-information requests, open data, contacts, and auction-related resources. Its apparent purpose is public administration and informational service delivery rather than commercial activity.

Scam/Impersonation Risk

The site's municipal presentation is coherent and the captured homepage contains no apparent commercial monetization, login form, or sensitive submission form. However, this benign page content is materially outweighed by confirmed external threat contradictions: the domain is recorded as blacklisted, with two malicious and one suspicious detections. The available evidence does not establish that the page is impersonating a named institution, but the reputation findings create a serious risk for sensitive interaction and prevent the apparent municipal identity from being treated as independently established.

EVIDENCE

- The homepage identifies the Ivano-Frankivsk City Council department and lists municipal functions, public-information procedures, legal acts, and open-data resources.
- External reputation results recorded 2 malicious detections and 1 suspicious detection, with a confirmed blacklist status.
- Domain registration evidence records creation on 2018-11-01 and an age of 7.8 years.
- Historical coverage records 57 archive snapshots spanning 2018–2025, with 8 years tracked.

Regulatory Verification Notes

The site includes substantive administrative materials, including departmental provisions, reports, regulatory acts, public-information procedures, and contact and working-hour information. Nevertheless, the available evidence does not independently verify the real-world operator, and the site's legal and governance disclosures remain unclear for purposes of institutional authentication. No commercial licensing claim is presented, which is consistent with the stated municipal-service model, but it does not resolve the external reputation contradiction. A separate broker-reputation dataset produced no match and therefore provides no additional adverse or validating conclusion.

EVIDENCE

- The “About/Structure,” “Reports,” “Department Regulations,” and “Legal Acts” pages describe the department's functions and relationship to the city council.
- The public-information and contacts pages provide administrative procedures and departmental contact information, but the supplied evidence does not independently verify the operator.
- The site is served from AS200000, Ukraine-AS - Hosting Ukraine LTD, UA.
- The transport certificate is DV-validated, issued by YR1, and valid to 2026-09-22T08:41:49+00:00.

What to Verify Next

Before any credential, payment, document-upload, or other sensitive interaction, the claimed municipal affiliation should be confirmed through an independently obtained Ivano-Frankivsk City Council directory or offline government contact route rather than relying solely on links or contact details presented on the site. The domain and its current status should also be reconciled with the city council's officially published web properties, while the external blacklist result should be escalated to the relevant institutional security or service-provider contacts for clarification. Until those checks are resolved, use should be limited to viewing publicly available information.

EVIDENCE

- The homepage contains no login form, hidden sensitive form, or sensitive input workflow in the captured session.
- The site's stated subjects are municipal administration, communal resources, agriculture, legal acts, and open data rather than online financial services.
- The captured browser sessions completed successfully with no external posts, external XHR requests, wallet activity, or clipboard-write activity observed.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interaction**. The site appears to provide legitimate-looking municipal information, but that presentation is not sufficient to overcome the confirmed external reputation contradictions and the lack of independently verified institutional identity.

Infrastructure Integrity

The site is directly hosted rather than fronted by a detected CDN or WAF, and two likely origin IPs were identified. This provides no protective infrastructure mitigation against the reputation concerns, although the hosting configuration itself does not demonstrate malicious behavior.

EVIDENCE

- CDN detected: false; edge IP count: 0; likely origin IP count: 2.
- The resolved infrastructure is located in Ukraine and uses the RIPE NCC registry.

Closing Assessment

Sensitive actions should remain suspended until the claimed government affiliation and the external reputation findings have been independently reconciled; publicly viewable, non-sensitive browsing is the proportionate interim use.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of depkr.if.ua.

- The request stayed on depkr.if.ua. It was not redirected to another domain. CLEAR
- Registration is published under TOB "ХОСТИНГ УКРАЇНА". CLEAR
- DNS for this domain is served by inhostedns.com, across 3 name servers. NOTED
- The registration is paid up to 2026-11-01. NOTED
- The earliest public archive of this site is from 2018-11-11. CLEAR
- It is hosted on Ukraine-AS, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about depkr.if.ua at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
