- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Dermstore is an established online beauty retailer presenting skincare, haircare, makeup, sunscreen, fragrance, tools, gifts, subscriptions, rewards, and expert services through a conventional ecommerce marketplace.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model with product categories, pricing and promotional content, account functions, and customer-service features; its login and newsletter forms have no identified untrusted destinations or hidden sensitive forms. External reputation checks found no malicious or suspicious detections, blacklist indication, or brand-impersonation signal.

- Homepage classification: ecommerce retailer; page risk assessed as low with no red flags.
- Domain registered 1999-08-02 and approximately 27.01 years old.
- Global traffic footprint is within the top 1 million, with rank 25260.

Regulatory Verification Notes

The site provides accessible commercial information covering products, shipping, returns, contact, legal matters, and company information. No regulatory license or registration number is claimed in the supplied site evidence; for a consumer beauty retailer, this is a transparency item rather than an indication of deception. Registration is through Key-Systems GmbH, and the site uses valid domain-validated TLS issued by YR2.

- Registrar: Key-Systems GmbH; expiration date 2027-08-02.
- Hosted on AS54113 (FASTLY - Fastly, Inc., US).
- TLS certificate: YR2, DV validation, valid through 2026-10-23.
- Homepage contains two forms: login and newsletter; no sensitive form was identified.

What to Verify Next

For procurement or regulated onboarding, confirm the applicable corporate entity and any consumer-commerce registrations through authoritative registries, and independently confirm the published customer-service and returns channels before entering into a material commercial relationship.

- Homepage identifies the business as an online beauty retailer and displays extensive product and brand categories.
- Site content includes shipping, returns, contact, legal, and company-information areas.
- No license claim or license number is presented in the supplied business-model evidence.

Summary Verdict

Dermstore presents as a legitimate, established, and trustworthy ecommerce business with a clean risk posture and no observed indicators of phishing, impersonation, or malicious activity. Normal interaction, including account login and standard purchasing activity, is appropriate.

Infrastructure Integrity

The website is protected by Fastly CDN/WAF infrastructure, with observed traffic served from the CDN edge at 151.101.245.91; the origin server was not observable. This provides a meaningful defensive layer, while remaining a mitigation rather than proof of legitimacy.

Closing Assessment

Standard browsing, account use, and purchasing may proceed normally; institutional users should complete their usual entity and compliance checks before formal onboarding.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [dermstore.com](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
