Full analysis

Overview

Desertcart Morocco is an established cross-border ecommerce marketplace offering internationally sourced consumer products, delivery to Morocco, customs handling, returns, refunds, customer support, and multiple payment methods.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model, including products sourced from the USA, UK, India, UAE, Japan, and other markets; duty-paid delivery; tracked shipping; buyer protection; and 14-day returns. No phishing, brand-impersonation, malicious behavior, or suspicious contact artifact was identified.

- The homepage identifies an ecommerce storefront with product listings, prices, shipping origins, delivery terms, returns, refunds, and support.
- The domain was registered in 2020 and is approximately 6.49 years old.
- Historical coverage records 165 archive snapshots spanning 2020–2026 across 7 years.
- External reputation checks found no malicious or suspicious detections; the domain is ranked within the global top one million.

Regulatory Verification Notes

The available registration record identifies Desertcart Trading FZE and the registrar as CLOUDER. The site presents consumer-protection, delivery, customs, refund, and returns information, but no specific financial or commercial license number is identified; for this ecommerce model, that is a limited transparency point rather than evidence of deception. A separate broker-reputation dataset produced no match.

- The homepage states that customs duties are collected at the official rate and offers full refunds for items that are broken, missing, or not as described.
- The site's registration record names Desertcart Trading FZE as the owner and CLOUDER as registrar.
- The site is served from AS13335, Cloudflare, Inc.
- Its TLS certificate is issued by WE1 at DV validation level and is valid through 2026-09-03.

What to Verify Next

Before a material purchase, the prospective customer should confirm the applicable commercial and consumer-protection requirements for cross-border delivery to Morocco, review the order-specific duties and refund terms,

and validate official support channels through the site’s own help and order-tracking functions.

- The homepage provides customs, delivery, refund, return, and live-support information for Morocco.
- The stated delivery window is 3–7 days for most orders.
- The site provides account, cart, help, and order-tracking functions.

Summary Verdict

The site presents as a legitimate, established, and trustworthy ecommerce business with a coherent operating model and no observed scam or impersonation indicators. Normal interaction, including account login, standard account actions, and ordinary transactions, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection places the observed traffic behind four Cloudflare edge addresses, with no origin candidate exposed in the available infrastructure view. This reduces direct origin exposure and is a mitigating security factor, although protective hosting infrastructure is not independently determinative of legitimacy.

Closing Assessment

Standard purchasing and account use may proceed under the site’s published ordering, delivery, refund, and support terms.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about desertcart.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
