

Is destination-chantilly.com legit? TrustSniffer's high-trust assessment: 80/100

destination-chantilly.com

Verdict

80

OUT OF 100

HIGH TRUST

destination-chantilly.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 70%.

What this site appears to be

French-language commercial site advertising seminar and corporate event planning services (venues, team-building, quotes). Contact phone and obfuscated email present. Content focuses on venues around Chantilly and service features.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This French-language commercial website presents a seminar and corporate-event planning service focused on selecting hotels and venues, arranging team-building activities, and obtaining quotations for professional events in Chantilly and elsewhere in France; its apparent business model is to coordinate venue bookings and event-planning services for corporate clients.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, blacklist, or malicious-content finding. The homepage presents a conventional event-services proposition, including venue selection, seminar organisation, team-building, direct contact, and quotation requests, rather than a high-risk financial or credential-harvesting model. Marketing statements such as “Meilleur prix garanti,” “Devis sous 24h,” “+17 ans d’expériences,” and references to “EXCELLENCE” are commercial claims that are not independently substantiated in the supplied evidence, but they do not by themselves establish deceptive conduct. Interactive testing identified implementation anomalies, including substantial page-state changes and console errors, yet no hidden forms, external password submission, wallet activity, clipboard manipulation, or cloaking was detected; these observations are therefore better treated as technical quality signals than as evidence of impersonation.

EVIDENCE

- The homepage is classified as a service/event-booking page and contains no login form or sensitive-data form.
- The homepage's stated services include "Journée d'étude," "Séminaire résidentiel," "Activités team-building," venue selection, and quotation requests.
- Domain registration: 2006-06-14, age 20.2 years.
- Web-archive history: 252 snapshots from 2008-11-20 through 2025-10-14, spanning 18 years tracked.

Regulatory Verification Notes

Available evidence is consistent with an established, apparently legitimate event-planning website, while the real-world operator identity remains independently unverified. The reviewed site material does not identify a licensing claim or registration number; for this type of commercial event-coordination service, that is a disclosure and verification point rather than evidence of a scam. The domain is registered through IONOS SE, and evaluated reputation checks found no malicious detection, blacklist hit, or abuse report; coverage was partial, so this is supportive context rather than proof of legal status or operator identity. The site's low page-authority signal is a limitation on prominence, not a legitimacy contradiction.

EVIDENCE

- Registered through IONOS SE; registration expires 2027-06-14.
- Served from AS47583 (AS-HOSTINGER — Hostinger International Limited, CY).
- TLS certificate: issuer YE1, DV validation, valid to 2026-09-28 21:12:14 UTC.
- Evaluated external reputation checks recorded 0 malicious detections, 0 abuse reports, and no blacklist hit.

What to Verify Next

Before a corporate booking or payment, the prospective customer should independently confirm the operating entity, its legal invoicing details, and any registration or authorisation applicable to the services being purchased. The venue's identity, booking authority, cancellation terms, refund arrangements, and payment recipient should be checked directly with the selected hotel or venue. Contact channels and quotation details should also be confirmed through an independent route before funds or sensitive business information are transferred.

EVIDENCE

- The homepage provides a "Demande de devis" pathway for event enquiries.
- The homepage identifies event locations around Chantilly and presents venue-selection services.
- The site's commercial claims and service scope are presented on-page without supplied independent supporting documentation.

Summary Verdict

The overall posture is **high trust and low risk**, with no observed scam or impersonation contradiction. The evidence supports treating the website as an established, apparently legitimate commercial service, while not treating that assessment as independent proof of the operator's real-world identity.

Infrastructure Integrity

The site resolves to Hostinger infrastructure associated with AS47583 and does not show a detected CDN edge layer; the observed infrastructure therefore provides ordinary hosting rather than a strong attribution or protection signal. The hosting environment is a mitigating technical context only and does not establish the operator's legitimacy.

EVIDENCE

- Infrastructure resolution identifies 4 unique IP addresses, all assessed as likely origin addresses, with 0 detected CDN edge addresses.
- Hosting provider: AS-HOSTINGER — Hostinger International Limited, CY; ASN AS47583.

Closing Assessment

Normal browsing and ordinary enquiry activity are proportionate to the current assessment; credential or payment interactions should proceed only after the independent merchant-identity, contractual, and payment-protection checks above are satisfactory.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of destination-chantilly.com.

- The request stayed on destination-chantilly.com. It was not redirected to another domain. CLEAR
- Registration is published under IONOS SE. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-14. NOTED
- The earliest public archive of this site is from 2008-11-20. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about destination-chantilly.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
