

Is dfitness.co.rs safe? TrustSniffer's low-trust assessment: 40/100

dfitness.co.rs

Verdict

40

OUT OF 100

LOW TRUST

dfitness.co.rs is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for DFitness studio Batajnica listing instructors, classes (Pilates, Yoga, Cardio), gallery and contact/online class info. Primarily informational with schedule and membership/contact details.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What dfitness.co.rs served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

DFitness Studio Batajnica is a local fitness-business website presenting instructors, Pilates, Cardio, Yoga and other exercise programmes, together with schedules, gallery material, membership information, and online and in-person class announcements. Its apparent business model is to attract participants and generate revenue through class fees, memberships, and related training services.

Scam/Impersonation Risk

The website's visible content is consistent with a local fitness studio, and no brand impersonation, conflicting legal identities, login form, password-collection mechanism, hidden sensitive form, wallet connection, or other phishing workflow was observed. However, this benign page presentation is contradicted by external threat detections: two evaluated detections classified the domain as malicious, and the domain is recorded on a confirmed blacklist. The domain's long registration continuity and historical web presence are positive provenance signals, but they do not neutralise the confirmed external security contradiction. The apparent operator identity therefore remains unverified, and sensitive interaction should be treated as elevated risk.

EVIDENCE

- The homepage presents the DFitness Studio Batajnica local-business profile without a login or sensitive-input form.
- External reputation assessment recorded 2 malicious detections and a confirmed blacklist status; no Google Safe Browsing malicious result was recorded.
- Domain registration: 2012-01-06; age 14.63 years; registrar TELEKOM SRBIJA A.D.
- Web archives recorded 86 snapshots spanning 2012–2025, covering 14 years.

Regulatory Verification Notes

The available registry record identifies “Fitness & dens studio Danijela” as the registrant and TELEKOM SRBIJA A.D. as registrar, but the site’s real-world identity is not independently verified. The site does not claim a regulatory or professional licence, and its legal and governance disclosures are unclear; this is a verification gap rather than independent proof of wrongdoing. The business appears to operate as a fitness and training service rather than a financial or otherwise regulated service. No matching broker-related third-party record was identified. Transport security is present, but the certificate is domain-validated only and should not be interpreted as proof of organisational identity.

EVIDENCE

- The site’s legal/content pages include a “PRAVILNIK” section but do not present a licence authority or licence number.
- The registry record lists “Fitness & dens studio Danijela” as owner and TELEKOM SRBIJA A.D. as registrar.
- TLS certificate: issuer YR2; validation level DV; valid to 2026-10-22T18:10:06+00:00.

What to Verify Next

Before any credential, payment, or other sensitive interaction, the business name and payment recipient should be confirmed through an independent Serbian business registry or an offline channel not obtained solely from the website. The published terms, membership conditions, cancellation arrangements, and online-class payment process should be reviewed, and any external security alert should be resolved through an independent technical assessment before the domain is trusted for sensitive use.

EVIDENCE

- The site contains a “PRAVILNIK” page that can be compared with independently confirmed business and payment details.
- The contact and online-class pages provide the channels that should be validated through an independent route.
- The domain’s confirmed external security contradiction requires resolution before sensitive interaction is approved.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. Although the website presents a coherent local-business profile, the confirmed external security contradiction materially outweighs the reassuring appearance of the public pages. Normal browsing may be separated from account, credential, or financial activity, which should not be treated as reliable on the available evidence.

Infrastructure Integrity

The site resolves directly to infrastructure operated by BEOTEL-AS – TELEKOM SRBIJA a.d. in Serbia, using AS6700 and a single likely origin IP. No CDN or WAF was detected, so there is no identified edge-layer protection mitigating direct origin exposure.

Closing Assessment

Treat the domain as read-only until the external security finding, business identity, and intended transaction arrangements have been independently resolved.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of dfitness.co.rs.

- The request stayed on dfitness.co.rs. It was not redirected to another domain. CLEAR
- Registration is published under TELEKOM SRBIJA A.D.. CLEAR

- DNS for this domain is served by beotel.net, across 2 name servers. NOTED
- The registration is paid up to 2027-01-06. NOTED
- The earliest public archive of this site is from 2012-07-03. CLEAR
- It is hosted on BEOTEL-AS, from a server in RS. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dfitness.co.rs at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
