

Is dgsolarlite.co.uk legit? TrustSniffer's high-trust assessment: 75/100

dgsolarlite.co.uk

Verdict

75

OUT OF 100

HIGH TRUST

dgsolarlite.co.uk appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 70%.

What this site appears to be

DG Solarlite is a Bolton-based installer of windows, doors, conservatories and related home-improvement services. The site includes service pages, portfolio highlights, contact details (phone and email) and a contact form for quotes. Legal footer cites a UK company number.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

DG Solarlite is a Bolton-based local home-improvement business offering windows, doors, conservatories, fascias and soffits, with service information, portfolio material and quote-request facilities intended to convert homeowner enquiries into installation contracts.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent local-services business model rather than a deceptive financial, crypto, or credential-harvesting proposition, and the available external reputation checks identified no malicious, phishing, or blacklist findings. Its service pages, portfolio content, contact facilities and legal footer are consistent with an operating installation business; however, the available evidence does not independently verify the real-world operator behind the site.

EVIDENCE

- The homepage and service pages describe windows, doors, conservatories, fascias and soffits, with no detected impersonation or phishing indicators.
- The domain was registered on 2023-08-15 and is approximately 3.02 years old.
- Historical records contain 649 snapshots spanning 2017–2026, with 10 years tracked and no suspicious repurposing detected.

Regulatory Verification Notes

The legal footer cites a UK company number, which is a positive disclosure feature for a local contractor, but the supplied content does not establish an independently verified connection between that disclosure and the website operator. No specific trade licence, regulatory registration, or licence number is presented in the available site material; this is a transparency and verification matter rather than evidence of impersonation. The absence of a matching third-party broker profile is only contextual reputational information and is not a licensing determination.

EVIDENCE

- The site's legal footer cites a UK company number.
- Domain registration is recorded through eNom LLC, with an expiration date of 2027-08-15.
- The site's transport encryption uses a DV TLS certificate issued by WE1, valid through 2026-11-02.
- The website is served through AS13335, operated by Cloudflare, Inc.

What to Verify Next

Before entering into a contract or making a payment, independently match the company number shown in the legal footer to the relevant UK corporate registry and confirm that the registered business name and trading details correspond to the contractor. Obtain a written quotation identifying the contracting entity, scope of works, cancellation and remedial terms, and confirm the applicable return or consumer-protection arrangements. Payment should use a method offering appropriate transaction protection, and contact channels should be confirmed through an independently sourced business record rather than relying solely on the website.

EVIDENCE

- The contact page provides a quote-request form for prospective installation work.
- The site includes portfolio and testimonial material supporting its presentation as a local service provider.
- The available form analysis identified one contact-inquiry form and no sensitive credential form.

Summary Verdict

The website has a **high-trust, low-risk posture** and is apparently legitimate, with evidence consistent with an established local business website. No scam, phishing, impersonation, or identity-conflict indicators were observed, although the operator's real-world identity remains independently unverified.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a mitigating layer between visitors and the hosting environment. Observed resolution returned Cloudflare edge infrastructure, and the origin server was not exposed through the observed network path; this supports infrastructure resilience and reduces direct origin exposure, but does not by itself establish business legitimacy.

Closing Assessment

Ordinary browsing is appropriate, while independent company-identity, contract-term, and payment-protection checks should be completed before credential or payment interactions.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of dgsolarlite.co.uk.

- The request stayed on dgsolarlite.co.uk. It was not redirected to another domain. CLEAR
- Registration is published under eNom LLC. CLEAR
- DNS for this domain is served by com., across 2 name servers. NOTED
- The registration is paid up to 2027-08-15. NOTED
- The earliest public archive of this site is from 2017-04-23. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dgsolarlite.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
