Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Spanish regional newspaper portal focused on Almería, Andalusia, and Spain, presenting news across politics, society, economy, agriculture, sports, culture, technology, health, and opinion. Its apparent business model combines advertising, newsletters, subscriptions, and optional paid access to digital content.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent editorial publication with substantial, topic-consistent content, conventional subscription and account functions, and no indicators of phishing, impersonation, malware, financial manipulation, wallet abuse, or hidden sensitive forms. External reputation checks also found no malicious or suspicious detections.

- Homepage: extensive Spanish-language editorial coverage and established newspaper navigation.
- Homepage behavior: no login form abuse, hidden forms, wallet activity, clipboard hijacking, or cloaking detected.
- External reputation: 0 malicious detections, 0 suspicious detections, and no phishing detection recorded.
- Domain provenance: first observed 2007-06-20; reconciled domain age 19.1129363449692 years; 5000 archive snapshots across 17 tracked years, from 2007-06-20 to 2023-10-25.

Regulatory Verification Notes

The site presents a consistent publisher identity, legal notices, contact information, subscription arrangements, advertising disclosures, and cookie-consent controls. No license claim or registration number is presented; for this apparent news-publishing model, that is a transparency item for ordinary due diligence rather than evidence of deception. The external broker-reputation dataset recorded no match.

- Hosting: AS16509, AMAZON-02 — Amazon.com, Inc., US; hosting country IE.
- Transport security: TLS certificate issued by YE1, validation level DV, valid to 2026-10-27T12:55:56+00:00.
- Homepage: subscriptions, advertising, newsletters, and cookie-consent mechanisms are disclosed.
- Legal/contact presentation: publisher identity, legal notices, and contact information are available on the site.

What to Verify Next

Before a paid subscription or institutional engagement, confirm the applicable pricing, renewal, cancellation, and refund terms on the subscription pages and validate the published contact channels through an independently obtained route.

- Subscription pages: review payment, renewal, cancellation, and refund conditions.
- Contact and legal pages: cross-check publisher details and official communication routes.

Summary Verdict

This is a legitimate, established, and trustworthy website with a coherent identity, mature editorial presence, clean technical and reputational signals, and no observed scam or impersonation indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Amazon AWS CDN/WAF infrastructure, with observed addresses belonging to edge servers and no origin server exposed in the analysis. This provides a meaningful defensive layer against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Normal browsing, account login, subscription activity, and other standard interactions are appropriate under ordinary organizational security controls.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of diariodealmeria.es.

- The request stayed on diariodealmeria.es. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2007-06-20. CLEAR
- It is hosted on AMAZON-02, from a server in IE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about diariodealmeria.es at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
