## Key findings

---

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

---

### Overview

Digistore24 is an established digital-commerce and affiliate marketplace that helps vendors sell products online and enables affiliates to earn commissions by promoting them. Its marketing page presents online selling, affiliate commissions, and related platform services as its apparent business model.

### Scam/Impersonation Risk

No contradictions, impersonation indicators, phishing signals, or confirmed malicious reputation findings were observed. The homepage describes a coherent marketplace model based on vendor transactions and affiliate commissions rather than promised investment returns; it contains no sensitive form, hidden form, wallet interaction, or suspicious external destination. The site's clean reputation signals and sustained public presence further support its authenticity.

- The homepage presents online selling and affiliate commissions under the Digistore24 brand, with no detected red-flag content.
- The homepage contains no login form, sensitive form, hidden form, or wallet-connection behavior.
- Domain registration: 2013-05-20; age 13.21 years.
- Web-archive history: 3,816 snapshots spanning 2013-05-23 to 2026-07-31, covering 14 years.

### Regulatory Verification Notes

The available content supports a commercial marketplace rather than an investment-return service. No licensing claim or registration number is presented in the supplied marketing content, so regulatory status should be confirmed against the applicable jurisdiction if a regulated service is contemplated; this is a transparency point, not evidence of deception. Registration information identifies 1API GmbH as registrar and records the owner as "On behalf of digistore24.com OWNER," while the absence of a broker-dataset match provides no adverse third-party signal.

- The homepage describes digital commerce and affiliate marketing, with revenue associated with platform or transaction activity.
- Registrar: 1API GmbH; creation date: 2013-05-20T09:12:26Z; expiration date: 2027-05-20T09:12:26Z.
- Hosting: AS396982, GOOGLE-CLOUD-PLATFORM - Google LLC, US.
- TLS certificate: issuer WR3, DV validation, valid to 2026-10-14T23:00:33+00:00.

### What to Verify Next

For any regulated or jurisdiction-specific engagement, confirm the relevant legal entity, applicable licensing requirements, and current terms through the site's legal pages and the appropriate official registry. Independently confirm official support and contact channels before establishing a high-value commercial relationship.

- The marketing homepage links its operation to online selling and affiliate commissions rather than presenting a regulated-investment proposition.
- The supplied content includes cookie-consent references to the Terms of Use and Privacy Policy.
- The available broker-context check returned no matching record.

Summary Verdict

Digistore24 presents as a legitimate, established, and trustworthy digital-commerce platform with a coherent business purpose and no observed contradiction or impersonation signal. Normal interaction, including account login and standard platform use, is appropriate.

Infrastructure Integrity

The site is served through Google Cloud infrastructure and uses a valid domain-validated TLS certificate issued by WR3. These controls support transport security and operational resilience, while remaining technical safeguards rather than independent proof of business legitimacy.

Closing Assessment

Prospective users may proceed with normal account and platform activity, subject to ordinary commercial and jurisdiction-specific due diligence for any material engagement.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of digistore24.com.

- The request stayed on digistore24.com. It was not redirected to another domain. CLEAR

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about digistore24.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
