

Is directv.com.ar legit? TrustSniffer's high-trust assessment: 100/100

directv.com.ar

Verdict

100

OUT OF 100

HIGH TRUST

directv.com.ar appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 55%.

What this site appears to be

Spanish-language DIRECTV Argentina commercial homepage promoting satellite TV, DGO online TV, internet, sports, streaming, and premium channel subscriptions. It includes detailed prices, customer and sales phone numbers, WhatsApp purchasing, support resources, consumer-protection links, cancellation controls, privacy and legal pages, and DIRECTV Argentina S.R.L. registration and address information.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is DIRECTV Argentina's Spanish-language commercial portal for satellite television, DGO online television, internet, sports, streaming, and premium-content subscriptions. It presents recurring plans with detailed promotional terms—including a 230-channel package advertised at ARS 39,500 per month—and provides online and WhatsApp purchasing, account access, payment facilities, and customer-service resources.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, or malicious reputation findings were observed. The long-established domain, consistent DIRECTV Argentina branding, corporate registration details, physical address, tax identifier, and consumer-facing service controls collectively support an authentic operating presence. Interactive testing also found no hidden forms, credential forwarding, cloaking, wallet-draining behavior, clipboard interference, or suspicious external requests.

- The domain registration record shows registration on 12 September 2013 (~12.9 years old), through NIC Argentina, with CSC Corporate Domains Inc. recorded as owner and expiry on 5 May 2027.
- The homepage identifies DIRECTV Argentina S.R.L. and provides corporate address and registration information alongside customer and sales telephone numbers.
- The homepage offers consumer-protection resources, privacy and legal pages, and subscription-cancellation controls.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no safe-browsing alert, no abuse reports, and no confirmed blacklist or phishing hit.

Regulatory Verification Notes

The site clearly identifies the contracting business and provides substantive commercial and consumer disclosures. No sector-specific licence, authorization number, or regulator reference was established from the analyzed homepage; this is a limited verification note rather than evidence of impersonation or unlawful activity. The absence of a match in the supplied broker-intelligence dataset has no material bearing on a television, streaming, and internet provider.

- The homepage discloses promotional and standard pricing, payment conditions, tax treatment, package contents, and promotion durations.
- The legal and privacy resources are presented as part of the homepage's customer-information framework.
- The analyzed page makes no financial-brokerage, investment, cryptocurrency, or regulated-yield claim.

- The site's organization-validated TLS certificate identifies DIRECTV Latin America and was issued by Sectigo Public Server Authentication CA OV R36, valid until 5 December 2026.

What to Verify Next

For procurement or material contractual engagement, the contracting entity's tax and corporate registration should be matched against the executed agreement, while service availability, post-promotion pricing, cancellation terms, and bundled-content conditions should be retained with the order record. Official sales and customer-service channels should also be confirmed through independently sourced DIRECTV corporate materials before changing payment instructions or account recovery details.

- The homepage distinguishes customer service from sales and provides separate telephone channels for each function.
- Plan cards distinguish introductory pricing from prevailing subscription charges and specify conditions involving credit-card payment.
- The purchase journey includes both online contracting and WhatsApp-based sales routes.
- Account-management entry points for DGO and MiDIRECTV are visibly separated from the plan-selection content.

Summary Verdict

The site is a legitimate, established, and trustworthy DIRECTV Argentina service portal. Its coherent corporate identity, mature commercial presentation, clean threat reputation, and normal browser behavior provide strong convergent support for ordinary consumer and enterprise interaction, including account login and standard transactions.

Infrastructure Integrity

The site resolves to a Radware-hosted address in the United States. No CDN edge was identified, and the observed address appears to be a directly reachable hosting endpoint; this is an architectural characteristic, not evidence of abuse, and the overall infrastructure posture remains consistent with established corporate delivery.

- The hosting infrastructure serves the site from AS25773 (RADWARE-CLOUD-SERVICES — Radware Inc., US).
- DNS resolution identified one address, 66.22.79.216, with no separate CDN edge address observed.
- The hosting infrastructure is registered through ARIN and geolocated to the United States.

Closing Assessment

Normal browsing, account login, subscription management, and standard purchases are appropriate, subject to routine review of the applicable contract and payment terms.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of directv.com.ar.

- The request for directv.com.ar ended on www.directvla.com, a different domain. **WATCH**
- Registration is published under nicar. **CLEAR**
- DNS for this domain is served by co.uk, across 4 name servers. **NOTED**
- The registration is paid up to 2027-05-05. **NOTED**
- It is hosted on RADWARE-CLOUD-SERVICES, from a server in US. **NOTED**

About this assessment

A trust score summarises the evidence TrustSniffer could collect about directv.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
