Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Discovery Store Chile is an established online retailer presenting camping, trekking, travel, hydration, and outdoor equipment for direct consumer purchase, with product pricing, promotions, delivery across Chile, store pickup, payment options, policies, contact details, social channels, and an outdoor blog.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model built around tents, sleeping bags, backpacks, travel bags, hydration products, and camping accessories, with ordinary pricing, discounts, shipping, pickup, and payment information. The available technical and behavioral evidence shows no phishing, credential-harvesting, brand-impersonation, wallet, or malicious-redirect indicators; external reputation checks were clean.

- The homepage contains a substantive ecommerce catalog, customer purchasing information, policies, contact details, and social links.
- Behavioral testing recorded no external activity, hidden forms, password submissions, cloaking, wallet connection, clipboard manipulation, or suspicious inline scripts.
- The domain is registered from 2018-05-16 and is 8.22 years old.
- The archive contains 61 snapshots spanning 2018–2026, with 9 years tracked.

Regulatory Verification Notes

The site operates as a conventional consumer retailer rather than presenting a financial or investment service. It does not display a license or registration number in the supplied content; this is a transparency item for ordinary corporate and consumer-protection verification, not evidence of impersonation or fraud. The registration record identifies Discovery Communications, LLC and uses Nom-IQ Ltd, dba Com Laude; no conflicting legal identities or broker-dataset match were observed.

- The homepage identifies the business as Discovery Store Chile and provides shipping, pickup, payment, policy, and contact information.
- The registration record lists Discovery Communications, LLC as owner and Nom-IQ Ltd, dba Com Laude as registrar.
- The site is served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS is issued by YE2 at DV validation level and is valid to 2026-10-26.

What to Verify Next

For higher-value commercial engagement, independently confirm the seller’s corporate registration and applicable Chilean consumer-protection requirements, and reconcile the published shipping, returns, payment, and support channels with the transaction documentation.

- The homepage publishes delivery terms, store pickup information, payment methods, and store policies.
- The site provides customer contact details and links to Facebook, Instagram, TikTok, and YouTube.
- The business model is identified as direct-to-consumer ecommerce with no financial-services functionality detected.

Summary Verdict

The site presents as a legitimate, established, and trustworthy ecommerce business with a coherent commercial purpose, stable identity, clean reputation, and no observed contradiction signals. Normal interaction, including account login and standard purchasing activity, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer between visitors and the underlying hosting environment; the observed address was a Cloudflare edge address, and the origin server was not exposed during analysis.

Closing Assessment

Standard browsing, account login, and purchasing are appropriate, with routine commercial-record and transaction-document checks proportionate to the value of the engagement.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of discoverystore.cl.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [discoverystore.cl](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
