Full analysis

Overview

The website is an Italian Disney Store ecommerce storefront presenting Disney-branded toys, apparel, accessories, collectibles, seasonal merchandise, gift cards, promotions, account access, search, and shopping-cart functionality for direct-to-consumer retail sales.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent Disney merchandise business model with product categories, promotions, gift cards, customer accounts, and cart functionality, while technical and external checks found no phishing, malicious, blacklist, or brand-impersonation indicators. The site's long operating history and continuous archival presence further support an established identity.

- The homepage identifies the service as “Disney Store IT” and presents Disney products, gift cards, promotions, accounts, and shopping functions.
- The domain was registered in 2002 and is approximately 24.04 years old.
- The archive contains 1,227 snapshots spanning 2001–2026, covering 26 years.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist hit.

Regulatory Verification Notes

The site functions as a consumer-goods retailer rather than a financial service, and the supplied evidence does not show a claimed license or license number. That is a limited disclosure point for confirming the applicable retail entity and consumer-protection obligations, not an identity contradiction. Registration records associate the domain with The Walt Disney Company Ltd through CSC Corporate Domains, Inc.; registration privacy and administrative naming do not alter the otherwise consistent identity assessment.

- Domain registration lists The Walt Disney Company Ltd as the organization and CSC Corporate Domains, Inc. as registrar.
- The homepage provides customer-service, order, returns, delivery, gift-card, and account-related pathways.
- The site's hosting infrastructure is served from AS20940, identified as AKAMAI-ASN1 - Akamai International B.V., NL.
- The TLS certificate is issued by YR1 at DV validation level and is valid through 2026-09-22.

What to Verify Next

For procurement or regulated onboarding, confirm the applicable contracting entity, consumer terms, returns process, and any required retail registration through authoritative corporate or consumer-protection records. Independently confirm official customer-service channels before resolving material account or transaction disputes.

- The homepage advertises delivery terms, returns-cost information, gift cards, customer service, orders, and account registration.
- The storefront exposes account, wishlist, cart, and order-management functions relevant to ordinary customer verification.

Summary Verdict

The website presents a legitimate, established, high-trust retail posture with a coherent business purpose and no observed contradiction or abuse pattern. Normal interaction, including account login, account actions, and standard purchases, is appropriate.

Infrastructure Integrity

The site is protected by Akamai CDN/WAF infrastructure, with observed traffic terminating on four Akamai edge addresses and no origin candidate identified. This reduces direct origin exposure and is a mitigating infrastructure characteristic, but it is not by itself proof of legitimacy.

Closing Assessment

Standard browsing, account use, and ordinary retail transactions may proceed normally, subject to routine organizational purchasing and consumer-protection checks where applicable.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about disneystore.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
