What domainedepoudos.fr served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Domaine de Poudos is a French bed-and-breakfast and table d'hôte in Gers, near Auch, presenting four rooms priced at €90 or €110 per night, a two-person gîte, countryside accommodation, shared evening meals, a swimming pool, and an arboretum, with reservations handled through the site's contact channels.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent small-hospitality offering rather than a high-risk financial, investment, or credential-harvesting model, and the available technical and reputation evidence contains no confirmed phishing, impersonation, blacklist, or malicious-activity indicator. The homepage identifies the hosts as Anne-Marie and Jean-Jacques and provides a physical location and telephone contact, while observed browsing found no login form, hidden sensitive form, wallet interaction, cloaking, or suspicious script behavior. The operator's real-world identity remains independently unverified, so the evidence supports an apparently legitimate site rather than proving the underlying identity.

EVIDENCE

- The homepage describes Domaine de Poudos, identifies Anne-Marie and Jean-Jacques as the hosts, and gives an address in Auterive, Gers, together with telephone contact.
- Browser analysis recorded no login form, hidden form, password submission, wallet-provider activity, clipboard manipulation, or suspicious inline script.
- External reputation checks recorded zero malicious detections, zero suspicious detections, zero abuse reports, and no blacklist or phishing hit.
- The domain was registered on 2010-07-27 and is approximately 16.08 years old; recorded archive coverage spans 2013–2026, with 112 snapshots across 14 years.

Regulatory Verification Notes

The site's activity is ordinary hospitality and accommodation rather than a service that visibly claims financial or regulated authorization. Its pages provide a named property, accommodation descriptions, pricing, location, and booking contact, but the available evidence does not independently verify the legal entity operating the property. No license or registration number is claimed on the reviewed pages; for this type of business, that is a transparency item to clarify where relevant, not evidence of deception. The broader reputation context is consistent with a legitimate small business, although it is not a legal, licensing, or regulatory determination.

EVIDENCE

- The homepage title identifies "Domaine de Poudos – Chambres d'hôtes au coeur du Gers," and the page presents accommodation, reservation, and table d'hôte sections.
- The site's hosting infrastructure is served from AS16276, OVH - OVH SAS, FR.
- The site's TLS certificate is issued by YE1 at DV validation level and is valid through 2026-11-13T20:02:45+00:00.
- No matching broker record was identified in the reviewed third-party reputational dataset.

What to Verify Next

Before a reservation involving material prepayment or personal information, an independent check should confirm that the named hosts, property address, reservation arrangements, cancellation terms, and payment recipient correspond to the same real-world accommodation. Payment should use a method offering appropriate dispute or payment-protection mechanisms, and any booking confirmation should clearly state the applicable terms. Where relevant to the transaction, licensing or local registration requirements should be confirmed with the competent French authority.

EVIDENCE

- The reservation page and homepage provide the stated booking route and direct telephone contact for independent cross-checking.
- The site contains no sensitive online form, indicating that payment or extensive personal-data collection was not observed during browsing.
- The page's stated business model is room accommodation, meals, and guest services rather than financial or investment activity.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk hospitality website. Its coherent purpose, long operating history, clean observed technical behavior, and absence of contradictory signals support a high-trust posture, while independent verification of the real-world operator remains outstanding.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure, with both observed addresses associated with OVH's AS16276 and no origin candidate identified in the analysis. This separation provides a useful mitigation against direct origin exposure, but it is an infrastructure-control signal rather than proof of business legitimacy.

Closing Assessment

Ordinary browsing appears proportionate; before credential or payment interactions, the prospective guest should complete the independent merchant-identity, cancellation or return-policy, and payment-protection checks appropriate to the booking.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of domainedepoudos.fr.

- The request stayed on domainedepoudos.fr. It was not redirected to another domain. CLEAR
- Registration is published under OVH. CLEAR
- DNS for this domain is served by anycast.me, across 2 name servers. NOTED
- The registration is paid up to 2026-08-27. NOTED
- The earliest public archive of this site is from 2013-07-05. CLEAR
- It is hosted on OVH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about domainedepoudos.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
