

# Is doodleyroo.com a scam? TrustSniffer's high-risk assessment: 0/100

doodleyroo.com

## Verdict

0

OUT OF 100

CRITICAL RISK

doodleyroo.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A simple 'Be Back Soon' / maintenance landing page for 'Cookiest' (DoodleyRoo4U2BU). Displays contact email (info @ cookiest .com), a PO Box in New York, trademark notice and copyright year. No active forms, links, login, or transactional elements detected.

## Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

## The page as captured

<https://doodleyroo.com/>

What doodleyroo.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The site is a “Be Back Soon” maintenance landing page for Cookiest and DoodleyRoo4U2BU, presenting a contact address, a New York PO Box, trademark notices, and no visible product, service, payment, login, or transaction flow.

### Scam/Impersonation Risk

The site presents a **critical sensitive-interaction risk** because external security detections include a confirmed blacklist event and multiple malicious classifications. These findings are materially more significant than the otherwise inactive page behavior: the homepage contains no login form, payment mechanism, wallet connection, or active service, but the external reputation signals warrant treating the domain as unsafe for credentials, financial activity, or other sensitive interaction. No conflicting legal identities or direct brand-impersonation indicators were observed in the supplied page content. The blacklist status is supported by detections associated with Fortinet and Sophos, rather than by a confirmed phishing or impersonation finding.

#### EVIDENCE

- External reputation telemetry recorded 13 malicious detections, with 0 suspicious detections, across 18 effective evaluations.
- The external assessment recorded a confirmed blacklist hit and an active protective decision based on the malicious-detection threshold.
- The homepage contains no forms, login elements, hidden forms, external submissions, wallet activity, or transaction flow.
- The homepage identifies Cookiest, DoodleyRoo4U2BU, DoodleyRoo, and 4U2BU through its displayed text and trademark notices, with no second legal-entity name present.

#### Regulatory Verification Notes

The maintenance page does not present a commercial or regulated offering, license claim, registration number, governing entity, terms, privacy notice, or other substantive legal framework. This leaves the operator's real-world identity unverified and makes the site's regulatory status unclear; it is a transparency gap requiring confirmation if the site later begins offering products or services. A clean match was not present in the supplied broker-reputation dataset, but that contextual result is not a licensing or regulatory determination.

#### EVIDENCE

- The homepage is a coming-soon placeholder with approximately 232 characters of visible text and no active commercial service description.
- Domain registration records show creation on 2016-08-26T18:00:24Z, an age of 9.99 years, and expiry on 2027-08-26T18:00:24Z.
- The domain is registered through Cloudflare, Inc.
- The site uses a DV TLS certificate issued by WE1, valid to 2026-11-10T08:43:19+00:00.

#### What to Verify Next

Before any future engagement, an independent offline route should authenticate the operator behind the Cookiest and DoodleyRoo4U2BU names and confirm that the postal details correspond to that operator. If the site introduces a regulated or financial service, the claimed entity and authorization should be matched directly against the relevant official registry before account creation, payment, or submission of personal information. Any future legal, privacy, terms, or service pages should be reviewed for consistent entity information and enforceable customer protections.

#### EVIDENCE

- The homepage currently provides only a contact presentation and postal reference, leaving no independent service or legal workflow to validate.
- No official licensing authority, license number, or regulated-service disclosure is displayed on the available page.
- No login, payment, or transactional elements are currently exposed for controlled testing.

Summary Verdict

The overall posture is critical and unsuitable for sensitive interaction. The apparent maintenance-only presentation does not overcome the confirmed external reputation contradictions, while the real-world operator remains unverified.

Infrastructure Integrity

The site is served through Cloudflare’s CDN/WAF infrastructure, and all observed addresses were CDN edge addresses rather than a directly observable origin. This provides an infrastructure-layer mitigation against straightforward origin exposure, but it does not establish operator legitimacy or offset the external reputation findings.

EVIDENCE

- Hosting infrastructure is AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- Four observed edge addresses were associated with AS13335, with 0 likely origin addresses identified.
- The hosting network is recorded in the US and the registry is ARIN.

Closing Assessment

Sensitive interaction should be withheld unless and until the operator, purpose, and any future service authorization are independently authenticated through authoritative channels.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.  
Registration and ownership rule:KF\_WHOIS\_INCOMPLETE
- The registration record withholds contact details for the operator.  
Registration and ownership rule:KF\_WHOIS\_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.  
Analysis engine signal:direct\_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.  
External reputation rule:EXT\_BLACKLIST\_CRITICAL

Identity verification

|                |            |
|----------------|------------|
| Status         | UNVERIFIED |
| Identity score | 30/100     |

|                                  |     |
|----------------------------------|-----|
| Identity verification confidence | 25% |
|----------------------------------|-----|

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

### What TrustSniffer observed

First-party facts recorded during the assessment of doodleyroo.com.

- The request stayed on doodleyroo.com. It was not redirected to another domain. CLEAR
- Registration is published under Cloudflare, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-26. NOTED
- The earliest public archive of this site is from 2018-08-05. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about doodleyroo.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
