

Is draceciliazambrano.com a scam? TrustSniffer's high-risk assessment: 0/100

draceciliazambrano.com

Verdict

0

OUT OF 100

CRITICAL RISK

draceciliazambrano.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 75%.

What this site appears to be

Website for Dra. Cecilia Zambrano, a dental clinic focused on aesthetic and restorative dentistry. Provides service descriptions, testimonials, contact info, hours, and appointment/newsletter forms.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://draceciliazambrano.com/

What draceciliazambrano.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents an informational online presence for Dra. Cecilia Zambrano, a dental clinic offering aesthetic and restorative services such as smile design, veneers, whitening, implants, orthodontics, patient testimonials, contact details, and appointment scheduling.

Scam/Impersonation Risk

The site's homepage and treatment content are consistent with a dental-clinic presentation, and page analysis found no login form, hidden sensitive form, credential-harvesting behavior, or suspected brand impersonation. However, this benign presentation is contradicted by confirmed blacklist status and multiple external malicious detections, creating a material risk for sensitive interaction even though no direct phishing or identity-impersonation indicator was observed on the pages. The available evidence also does not independently verify the real-world operator behind the site. A long-established registration and sustained archive presence provide historical continuity, but they do not neutralize the current external threat findings.

EVIDENCE

- External reputation assessment recorded 10 malicious detections and a confirmed blacklist hit for the website.
- The domain was registered on 2020-06-22 and is approximately 6.17 years old.
- Web-archive records contain 351 snapshots spanning 2021–2026, with 6 years tracked.
- The homepage and appointment pages show healthcare-service content and appointment forms without login or password fields.

Regulatory Verification Notes

The available site content describes clinical services and appointment intake but does not identify a licensing authority or registration number. This is a regulatory-disclosure gap rather than, by itself, proof of fraud; nevertheless, it prevents independent confirmation of the clinician's professional authorization from the website alone. The site's apparent business model is ordinary paid dental care, but the current external reputation contradiction means that service claims and on-page contact details should not be treated as sufficient evidence of legitimacy.

EVIDENCE

- The site's treatment and About sections identify dental services including smile design, veneers, whitening, implants, and orthodontics, but no license number or licensing authority is disclosed in the supplied content.
- The site's transport encryption uses a DV certificate issued by YR2, valid through 2026-10-30.
- The available page forms are limited to contact, newsletter, and appointment functions; no sensitive login form was identified.
- No match was recorded in the supplied broker-reputation context.

What to Verify Next

Independent confirmation should be obtained from the relevant dental-regulatory registry that Dra. Cecilia Zambrano and the associated practice are authorized to provide the advertised services. The clinic's legal operating identity, physical practice details, appointment arrangements, and any payment recipient should be confirmed through an independently sourced telephone number or other offline channel before sensitive information, deposits, or medical records are provided. Official support and contact channels should also be confirmed independently rather than relying solely on the website.

EVIDENCE

- The website provides an About section, contact function, appointment scheduling, opening-hours information, and emergency-care claims that can be checked against independent records.
- The site advertises “7290+” satisfied patients, “300+” happy families, and “24/7” emergencies attended; these counters should be corroborated independently.
- Page analysis found no credential-collection form, so verification should focus on operator identity, clinical authorization, and payment or appointment handling.

Summary Verdict

The overall posture is **critical trust risk**, driven by a convergence of confirmed external threat findings that outweigh the site's otherwise coherent healthcare presentation and historical continuity. The website should not be treated as sufficiently trustworthy for sensitive interaction or as independently verified evidence of the claimed clinic operator.

Infrastructure Integrity

The site is hosted directly on SERVERCENTRAL - DEFT.COM in the United States, with no detected CDN or WAF layer and a single likely origin address. This provides limited architectural mediation, and the valid DV certificate confirms encrypted transport only; it does not establish operator legitimacy.

EVIDENCE

- Served from AS23352, SERVERCENTRAL - DEFT.COM, US.
- TLS certificate issuer: YR2; validation level: DV; valid to 2026-10-30.
- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.

Closing Assessment

Login, credential submission, medical-record transmission, deposits, and financial transactions should be withheld pending independent confirmation of the clinic's operator, authorization, and payment arrangements.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of draceciliazambrano.com.

- The request stayed on draceciliazambrano.com. It was not redirected to another domain. CLEAR
- Registration is published under NameSilo, LLC. CLEAR
- DNS for this domain is served by banahosting.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-22. NOTED
- The earliest public archive of this site is from 2021-12-01. CLEAR
- It is hosted on SERVERCENTRAL, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about draceciliazambrano.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
