

Is drshti.com legit? TrustSniffer's high-trust assessment: 100/100

drshti.com

Verdict

100

OUT OF 100

HIGH TRUST

drshti.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official website for Drshti Strategic Research Services Pvt Ltd, an established Mumbai-based strategic consulting and market research firm (founded 1994). The site lists services, case studies, team, awards and social links; no financial products, login flows, or sensitive-data collection detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2002.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Drshti is the corporate website of Drshti Strategic Research Services Pvt Ltd, a Mumbai-based strategic consulting and marketing research firm presenting consumer insight, product innovation, brand strategy, corporate culture, research papers, case studies, awards, and team information for prospective corporate clients in India and Southeast Asia.

Scam/Impersonation Risk

No phishing, impersonation, malicious-content, or conflicting legal-identity indicators were observed. The homepage and related corporate pages present a conventional B2B consulting model based on research projects, reports, case studies, and bespoke advisory engagements rather than financial products or high-risk transactional features. The site also shows no login flow, sensitive-data form, wallet interaction, hidden form, or suspicious browser behavior, supporting a low scam and impersonation risk assessment.

EVIDENCE

- The homepage identifies Drshti Strategic Research Services Pvt Ltd and describes strategic consulting and marketing research services established in December 1994.
- The site's service, case-study, team, and contact pages form a coherent corporate-consultancy structure with no detected phishing or brand-impersonation indicators.
- The domain was registered in 2000 and is approximately 26.27 years old; historical records span 2002–2026, covering 25 years.

Regulatory Verification Notes

The website provides a recognizable corporate identity and substantive business content, including an About section, team information, awards, certificates, case studies, and professional social links. No financial or otherwise regulated product is presented, and no license or regulatory registration claim is made; this is a disclosure point to clarify only if a proposed engagement involves regulated services. Available evidence is consistent with an established, apparently legitimate consultancy, but it does not independently prove the real-world operator's identity.

EVIDENCE

- The About and homepage content identify the business as Drshti Strategic Research Services Pvt Ltd and describe its Mumbai headquarters and India/Southeast Asia operating scope.
- The hosting infrastructure is AS396904, QualiSpace Inc, US; the resolved server is in India.
- Transport encryption uses a DV certificate issued by Sectigo Public Server Authentication CA DV R36, valid through 2027-01-15.

What to Verify Next

Before a credential or payment interaction, an organisation considering engagement should independently confirm the contracting entity, authorised representatives, scope of services, commercial terms, and applicable payment protections. If the engagement would involve a regulated activity rather than ordinary consulting, the relevant regulatory register should be checked for the specific legal entity and service. Official contact channels should also be confirmed through an independent business record or offline route before sensitive information is exchanged.

EVIDENCE

- The contact page provides the site's stated engagement channel and should be matched against independently sourced corporate details.
- The About, team, and awards pages provide the principal identity and reputation claims requiring ordinary commercial due diligence.
- The case-studies and papers sections provide material that can be used to validate the firm's stated experience and service capability.

Summary Verdict

The website has a **high-trust, low-risk posture** and is evidence-consistent with an established professional services business. Its legitimacy appears credible from the convergence of coherent corporate content, stable technical operation, long domain continuity, and clean contradiction screening, while operator identity remains likely rather than independently verified.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no detected CDN or WAF layer. Direct hosting does not itself indicate misuse; it simply means that intermediary edge protection was not identified as a mitigating control in this assessment.

Closing Assessment

Ordinary browsing and business inquiry are proportionate, while independent entity, commercial, and payment-protection checks should precede credential submission or payment activity.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of drshti.com.

- The request stayed on drshti.com. It was not redirected to another domain. CLEAR
- Registration is published under Register.com - Network Solutions, LLC. CLEAR
- DNS for this domain is served by register.com, across 2 name servers. NOTED
- The registration is paid up to 2032-05-19. CLEAR
- The earliest public archive of this site is from 2002-06-30. CLEAR
- It is hosted on QUALISPACE-ASN, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about drshti.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
