Scam/Impersonation Risk

No contradictions were observed. The storefront presents a coherent retail business model with product listings, prices, contact information, delivery details, and no indicators of phishing, brand impersonation, credential harvesting, cryptocurrency abuse, or malicious behavior. Independent reputation checks recorded no malicious or suspicious detections, supporting the conclusion that normal interaction is appropriate.

- The homepage presents extensive perfume, cosmetics, gift-set, pricing, and delivery content with no reported fraud indicators.
- Domain registration telemetry records creation on 2022-02-18 and an age of 4.45 years.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist hit.

Regulatory Verification Notes

The site operates as a conventional consumer retailer rather than presenting a financial, investment, or other clearly regulated service. No license claim or registration number is identified in the supplied site content; this is a limited disclosure point for business verification, not evidence of deception. The domain uses GO54 Limited, formerly Whogohost Limited, as registrar, and the site has valid mainstream transport encryption.

- The homepage identifies a Nigeria-focused retail operation and provides a physical Lagos address and contact details.
- The domain registrar is GO54 Limited (formerly Whogohost Limited).
- The site is hosted on AS13335 through Cloudflare; its TLS certificate is issued by YE1, uses DV validation, and is valid to 2026-09-06.

What to Verify Next

A prospective customer should confirm the seller's business identity, delivery and returns terms, and payment-recipient details through the site's published contact and commerce information before a material purchase. Where required for the transaction, any applicable local retail registration or consumer-protection status should be checked through the relevant Nigerian registry.

- The site provides contact information and a physical Lagos address.
- Shipping and returns information is presented as part of the storefront content.

Summary Verdict

The overall posture is that of a legitimate, established, trustworthy online retailer with no observed scam or impersonation indicators. Normal interaction, including account access and standard shopping use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic associated with AS13335 and edge address 23.227.38.32; the origin server was not exposed in the analysis. This reduces direct origin exposure but remains a mitigating control rather than proof of legitimacy.

- Cloudflare CDN/WAF protection was detected, with 1 observed edge IP and 0 likely origin candidates.
- The hosting provider is CLOUDFLARENET - Cloudflare, Inc., US, with registry ARIN and country attribution CA.

Closing Assessment

Prospective customers may proceed with normal shopping and account activity while applying ordinary transaction and payment safeguards.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dscentstation.ng at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
