Full analysis

Overview

Dubai Perfume Café is a South African online retailer presenting Arabic, niche, oil, and incense fragrances through a consumer ecommerce storefront, with product listings, discounts, nationwide delivery, secure-payment messaging, installment options, returns, and customer-support links.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent physical-goods retail model, and the available technical and reputation checks show no malicious, phishing, impersonation, or blacklist indicators. Normal account login and standard purchasing activity are appropriate.

- The homepage identifies a perfume and incense catalog with product prices, promotions, delivery information, and checkout functionality.
- External reputation checks recorded zero malicious or suspicious detections, no blacklist result, and no abuse reports.
- Historical coverage shows consistent domain presence without suspicious repurposing or semantic drift.

Regulatory Verification Notes

The site provides commercial, delivery, payment, returns, contact, and legal-policy information appropriate to an online retailer. No financial-service or regulated-investment claims are evident. A minor transparency point remains that the available material does not establish a specific regulatory registration, which is a verification matter rather than evidence of deception. No relevant third-party broker match was identified.

- The homepage links to customer support, returns, payment information, and terms and conditions.
- The domain was registered through HOSTAFRICA in 2021 and is approximately 4.82 years old.
- The site has 31 archive snapshots spanning 2022–2025, covering 4 tracked years.
- The site's hosting infrastructure is served from AS13335 (Cloudflare); its TLS certificate is issued by WE1 at DV validation level and is valid to 2026-10-05.

What to Verify Next

For higher-value commercial activity, confirm the seller's current business and consumer-protection details through the applicable South African registry or an independently sourced contact channel, and retain order, payment, and returns documentation.

- The homepage states that delivery is available nationwide in South Africa.

- The storefront describes secure checkout, installment-payment options, shipping thresholds, and returns.
- The site exposes sign-in, registration, order-tracking, and customer-support functions.

Summary Verdict

The website presents as a legitimate, established, and trustworthy ecommerce business with a coherent retail purpose and no observed contradiction or abuse signal. Its overall posture supports normal interaction, including account access and standard transactions.

Infrastructure Integrity

Cloudflare CDN/WAF protection and Cloudflare-managed edge infrastructure provide a meaningful mitigating control by reducing direct origin exposure, although protective hosting alone is not proof of legitimacy.

- Observed edge addresses are associated with AS13335 and Cloudflare, Inc., United States.
- Four observed IP addresses were identified as CDN edge addresses, with no origin candidate observed.
- TLS is active with WE1 as issuer and DV validation.

Closing Assessment

Prospective customers may proceed with ordinary browsing, account use, and purchases while applying standard ecommerce payment and record-keeping practices.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dubaiperfumecafe.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
