Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Dunnes Stores online grocery and retail service presenting food, beverages, household goods, toiletries, baby products, and related merchandise for purchase, with delivery or collection as the apparent fulfillment model.

Scam/Impersonation Risk

No contradictions were observed. The homepage's extensive, coherent retail catalog and ordinary ecommerce functions are consistent with the stated grocery business model, with no phishing, deception, brand-impersonation, or high-risk financial indicators identified. Historical continuity supports an established online presence rather than a recently repurposed storefront.

- Homepage: Broad grocery and household product catalog with delivery-time reservation and account access.
- Domain registration: Created 2020-10-19; age 5.79 years.
- Web archive: 135 snapshots from 2021-05-26 through 2026-02-13, spanning 6 years.

Regulatory Verification Notes

The site presents a coherent retail identity and does not evidence conflicting legal entities. No regulated financial-service claim or license number is presented in the supplied retail content; this is a limited transparency point relevant only if the engagement extends beyond ordinary consumer retail. Registration privacy is an administrative detail, while the clean external reputation and established operational footprint support legitimacy.

- Registrar: Blacknight Internet Solutions Ltd.; registrant record uses WHOIS Privacy Ltd.
- TLS certificate: Issued by WE1, domain-validated (DV), valid to 2026-10-24T09:24:50+00:00.
- External reputation: 0 malicious detections, 0 suspicious detections, and no adverse listing identified.
- Traffic footprint: Ranked 27365 and within the top 1 million sites.

What to Verify Next

For routine use, confirm that account, checkout, delivery, collection, returns, and support flows operate consistently with the retail service presented on the homepage. If any engagement involves services beyond ordinary retail, confirm the applicable consumer or regulatory disclosures through the relevant official registry.

- Homepage: Provides "Sign In or Register" and delivery-time reservation functionality.
- Page behavior: No sensitive form, hidden form, wallet connection, or untrusted destination was identified.

- Business model: Online retail sales with delivery or collection services.

Summary Verdict

The website is assessed as legitimate, established, and highly trustworthy. The evidence converges on a coherent retail identity, sustained activity, clean reputation, and normal ecommerce behavior, with no contradiction-based scam or impersonation concern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure. Observed addresses are CDN edge servers only, with no origin candidate identified; this reduces direct origin exposure and is a mitigating security control, not independent proof of legitimacy.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dunnesstoresgrocery.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
