

Is easyhome-chile.com a scam? TrustSniffer's high-risk assessment:
0/100

easyhome-chile.com

Verdict

0

OUT OF 100

CRITICAL RISK

easyhome-chile.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Local Chilean construction firm 'Easy Home Chile' offering project design, construction, materials supply, technical advisory, and investment opportunities; contact info and address provided.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Easy Home
Chile

What easyhome-chile.com served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a corporate-facing Chilean construction and real-estate services site presented under the name Easy Home Chile. It offers project design, housing construction, structural materials, technical advisory, workforce training, and real-estate investment opportunities, with the apparent business model of generating revenue through construction contracts, product sales, and related investment services.

Scam/Impersonation Risk

The site's visible presentation is consistent with a local construction business and does not show a login form, credential-harvesting mechanism, wallet functionality, or explicit brand-impersonation indicators. However, this benign page presentation is outweighed by confirmed external threat detections: the domain is reported as malicious by multiple evaluated sources and is subject to a confirmed blacklist finding. The result is a material contradiction between the site's corporate appearance and its external reputation, making sensitive interaction inappropriate. No conflicting legal-entity names or direct on-page impersonation indicators were observed.

EVIDENCE

- The homepage presents construction, materials, technical advisory, and real-estate investment services under the Easy Home Chile name.
- Domain registration is dated 2023-03-20, with an age of 3.42 years; the registrar is GoDaddy.com, LLC.
- Archive coverage records first observation on 2023-03-29 and last observation on 2025-07-10, spanning 3 tracked years with sparse historical coverage.
- External screening recorded 14 malicious detections and 1 suspicious detection, alongside a confirmed blacklist status.

Regulatory Verification Notes

The available site content identifies the business as Easy Home Chile and describes construction and investment-related services, but the real-world operator remains independently unverified. The visible material does not state a licensing authority or license number for the investment-related offering, and the disclosure position is therefore insufficient for relying on the site as evidence of regulated status. Any third-party reputational context should be treated only as background: no matching broker record was returned, which does not establish licensing or authorization. The site's transport security is technically valid, but domain-validation encryption does not authenticate the operator or establish regulatory standing.

EVIDENCE

- The homepage lists "Inversión Inmobiliaria" and describes investment opportunities as secure and offering high returns, without displaying a license authority or license number.
- TLS is issued by YE1 at DV validation level and is valid until 2026-11-08 18:42:06 UTC.
- The site's visible search presentation contains no structured-data markup and no substantive metadata beyond the page title, limiting independently machine-readable business attribution.

What to Verify Next

Before any account creation, credential submission, contract commitment, or financial transfer, the purported company should be independently confirmed through Chilean corporate and property-sector records, and any investment-related authorization should be checked with the relevant official registry. The published business address and telephone number should be validated through an independent offline or authoritative channel rather than relying solely on the website. Payment arrangements should use protections that permit dispute or recovery, and documents, invoices, and beneficiary details should be checked for consistency with the independently confirmed entity.

EVIDENCE

- The homepage publishes a Santiago address and a Chilean telephone number that can be checked independently.
- The site contains no login form or sensitive submission form in the observed page capture.
- Behavioral testing recorded no external form submissions, wallet-connection activity, or hidden forms during the observed runs.

Summary Verdict

The overall posture is **critical trust risk**. The site has a plausible corporate presentation, but the confirmed external threat and blacklist findings create a decisive basis for treating sensitive interaction as unsuitable, while the operator’s identity remains unverified.

Infrastructure Integrity

The website resolves to infrastructure operated by Hostinger International Limited and does not show a detected CDN or edge-IP layer; the observed addresses appear to be direct hosting infrastructure. This provides limited infrastructure-level mitigation and does not offset the external reputation findings.

EVIDENCE

- Hosted on AS47583, AS-HOSTINGER — Hostinger International Limited, CY; observed IP 92.113.23.106 in UA.
- Infrastructure resolution identified 4 unique IPs, with 0 edge IPs and 4 likely origin IPs.
- No CDN vendors were detected in the observed infrastructure configuration.

Closing Assessment

Interaction should remain limited to non-sensitive review until independent business, authorization, contact-channel, and payment checks are completed through authoritative or offline sources.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of easyhome-chile.com.

- The request stayed on easyhome-chile.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-20. NOTED
- The earliest public archive of this site is from 2023-03-29. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about easyhome-chile.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
