Schlichting

What eduardoschlichting.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Security Alert

Sophos, Fortinet, Google, Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a personal portfolio for Eduardo Schlichting, a web developer and designer in Woodstock, Ontario, presenting branding, web design, and custom development services for small service-based businesses, with customer acquisition conducted through project enquiries and contact interactions.

### Scam/Impersonation Risk

The site's homepage presents a coherent personal-service portfolio, contains no visible login or sensitive-data form, and shows no page-level brand-impersonation indicators. However, this benign presentation is outweighed by a confirmed external blacklist finding and malicious classifications from multiple security providers. The available evidence therefore supports a **critical sensitive-interaction risk posture**: the content does not itself establish that the operator is malicious, but the external detections are sufficiently serious that credentials, financial information, and other sensitive interactions should not be submitted. The published business identity remains unverified, and no identity contradiction between multiple legal entities was observed.

#### EVIDENCE

- The homepage identifies Eduardo Schlichting and describes branding, web design, and custom development services; page analysis recorded no fraud red flags.
- External reputation telemetry recorded 10 malicious detections, including detections from Sophos, Fortinet, Google, and Kaspersky.
- The domain was reported by two external blacklist sources; a separate major browser-safety check was not malicious, but this does not offset the confirmed blacklist result.

#### Regulatory Verification Notes

The available page content is consistent with a freelance web-design portfolio rather than a regulated financial or investment service. It presents a named individual and a Canadian location, but the operator's real-world identity is not independently verified by the supplied evidence. No regulated-service license or license number is claimed on the reviewed content; this is a verification limitation rather than, by itself, evidence of fraud. The domain's registration continuity and transport-security configuration are established technical facts, but neither proves the operator's identity or business standing.

#### EVIDENCE

- Domain registration: 2019-12-04; age 6.72 years; registrar GoDaddy.com, LLC.
- Web-archive record: 15 snapshots spanning 2021–2025, with 5 years tracked.
- Hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1 (DV), valid to 2026-10-24T20:29:00+00:00.

#### What to Verify Next

Before any sensitive interaction, an independent route should be used to confirm that Eduardo Schlichting is the intended service provider and that the proposed engagement, contracting entity, payment destination, and support channels are consistent with that identity. Any licensing or registration expectation should be checked with the relevant Canadian or provincial authority only if the proposed service involves regulated activity. The site should not be treated as sufficient evidence of identity merely because its portfolio content appears professional.

#### EVIDENCE

- The homepage provides a personal name, location, services, and a client testimonial but does not independently authenticate the operator.
- Behavioral testing observed no login form, hidden sensitive form, wallet connection, or wallet-drainer activity.
- The site presents no regulated financial product or license claim in the supplied content.

#### Summary Verdict

The overall posture is **critical trust risk**. A professional-looking portfolio and apparently ordinary service model do not overcome the confirmed external threat detections, so the site is not suitable for sensitive interaction on the evidence available.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure and resolves through Cloudflare edge servers rather than an observed origin address. The infrastructure provides a meaningful exposure-mitigation layer, but it is not proof of legitimacy and cannot offset the external reputation findings. The observed hosting provider is CLOUDFLARENET - Cloudflare, Inc., US, on AS13335.

Closing Assessment

Passive viewing is the proportionate use case; login, credential submission, payment activity, and other sensitive transactions should be withheld unless the operator and engagement are independently validated through trusted channels.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

  - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.  
Registration and ownership rule:KF\_WHOIS\_PRIVATE
  - The registration record withholds contact details for the operator.  
Registration and ownership rule:KF\_WHOIS\_HIDDEN
- 02 Sensitive Interaction Risk

  - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.  
Analysis engine signal:direct\_threat
  - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.  
External reputation rule:EXT\_BLACKLIST\_CRITICAL

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 25%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of eduardoschlichting.com.

- The request stayed on eduardoschlichting.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-12-04. NOTED
- The earliest public archive of this site is from 2021-05-18. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about eduardoschlichting.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
