

Is educart.co legit? TrustSniffer's high-trust assessment: 80/100

educart.co

Verdict

80

OUT OF 100

HIGH TRUST

educart.co appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 70%.

What this site appears to be

Website of Educart, an established Indian educational publisher offering K-12 and entrance exam books, free study materials, teacher resources, workshops, and distributor/retailer programs. Content is informational and commercial (book sales and services).

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Educart is an Indian educational publisher and bookstore offering K–12 and entrance-examination books, free study materials, teacher resources, workshops, training, and distributor or retailer opportunities; its apparent business model is the commercial sale of academic content and related educational services.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there is no confirmed phishing, impersonation, malicious-content, or conflicting-identity signal. The homepage presents a coherent educational-publishing model rather than a deceptive credential-collection or high-risk financial proposition, and its available content contains no obvious fraud indicators. The site should therefore be regarded as an apparently legitimate, established website, while the real-world operator remains independently unverified.

EVIDENCE

- The homepage identifies Educart as an academic-books and teaching-resources publisher, with structured sections for CBSE, CISCE, NCERT, NEET, CUET, books, study materials, and teacher resources.
- The homepage contains no login form, hidden sensitive form, external password form, wallet connection, or detected brand-impersonation indicator.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no confirmed phishing or blacklist result.
- Domain registration: 2021 (~5.27 years old). Web-archive records: 87 snapshots from 2018-08-04 through 2026-06-08, spanning 9 years.

Regulatory Verification Notes

The site functions as an educational publisher and bookseller rather than a business model that inherently requires financial-services licensing. No regulated-service license claim or license number is presented in the available content, so the principal verification issue is ordinary merchant and operator transparency rather than evidence of misconduct. The on-site identity is consistent with the Educart brand and business description, but independent evidence connecting the website to a specific real-world legal entity was not established. Registration through GoDaddy.com, LLC and the site's long-running content continuity are supportive administrative and provenance signals, not proof of legal ownership.

EVIDENCE

- Registrar: GoDaddy.com, LLC; registration creation date 2021-05-05T14:02:14Z and expiration date 2028-05-05T23:59:59Z.
- Served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1 at DV validation level, valid to 2026-09-27T07:15:49+00:00.
- The homepage provides commercial, educational, workshop, and distributor information but does not display a regulated-service license number.

What to Verify Next

Before credential or payment interactions, an independent check should match the legal seller name, address, and contact details stated on the site with an appropriate corporate or business registry. For purchases, the applicable return, refund, delivery, and payment-protection terms should be reviewed, and support channels should be confirmed through an independently sourced route. Any workshop, training, or distributor engagement should also be documented against the specific terms and counterparty details supplied by the site.

EVIDENCE

- Independent operator-identity matching remains the outstanding validation step for the site's commercial engagement.
- Purchase-related checks should focus on the site's merchant terms, refund process, delivery obligations, and payment-protection arrangements.
- Distributor and training enquiries should be validated against independently obtained contact and contractual information.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a low overall risk posture. The convergence of coherent page content, sustained provenance, clean external reputation, and sound transport security supports the high-trust classification, although operator identity is not independently verified.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses were CDN edge servers rather than an exposed origin server. This reduces direct origin exposure and is a mitigating infrastructure characteristic, but it is not independent proof of the site's legitimacy.

Closing Assessment

Ordinary browsing is proportionate to the evidence; before submitting credentials or payment details, independent merchant-identity, return-policy, and payment-protection checks should be completed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of educart.co.

- The request stayed on educart.co. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-05-05. CLEAR
- The earliest public archive of this site is from 2018-08-04. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about educart.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
