Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

efecopy.com is a Turkish-language parked-domain landing page presented through Hosting.com.tr, indicating that the domain uses a free parking service rather than operating an active customer-facing product or service.

Scam/Impersonation Risk

Confirmed external reputation contradictions make this site unsuitable for sensitive interaction. The domain is listed by external blacklist sources and has multiple malicious detections, including Tier-1 threat detections; this evidence materially outweighs the benign appearance of the current placeholder page. No on-page brand impersonation, phishing form, wallet connection, or active financial solicitation was observed, but the absence of those mechanisms on a parked page does not resolve the external threat findings. The domain's registration history is long, and the available archival record does not establish suspicious repurposing; those provenance signals do not offset the confirmed blacklist status. No identity contradiction between legal entities was observed, but the real-world operator remains unverified. Evidence:

- The external reputation assessment records `vt\_malicious: 11`, `external\_blacklist: true`, and Tier-1 detections from Fortinet and Sophos.
- Domain registration telemetry: registered 2013-05-31T08:22:05Z, approximately 13.23 years old, expiring 2027-05-31T08:22:05Z.
- Archive telemetry: 0 recorded snapshots, first seen 2013-08-26T07:15:46Z, last seen 2024-04-18T12:16:50Z, with 12 years tracked.
- The observed homepage contains no login form, sensitive form, wallet connection, or detected brand-impersonation indicator.

Regulatory Verification Notes

The current page does not identify an operating legal entity, regulated activity, licensing authority, or license number. Because it is a parked placeholder and does not solicit funds or present an active service, there is no substantive business model on the page against which authorization can be assessed. This is a significant identity and disclosure gap for any future use of the domain, while the external blacklist findings remain the separate and more serious security concern. Evidence:

- The homepage is titled "Hosting.com.tr" and describes free domain parking, forwarding, DNS management, and mail-routing features rather than an operating business.
- No license claim, licensing authority, or license number is presented in the supplied page content.
- Hosting telemetry identifies AS42868, NiobeBilisimHizmetleri - Niobe Bilisim Ltd. Sti., Türkiye; the registrar is Realtime Register B.V.
- The site's TLS certificate is issued by YE1 at DV validation level and is valid to 2026-10-23T23:25:34+00:00.

What to Verify Next

Any future activation of this domain should first be tied to a separately verified legal entity and, where applicable, confirmed against the relevant licensing or company registry. Contact details should be validated through an independent offline or previously trusted channel, and any request to transition from the current placeholder page into account, credential, payment, or other sensitive activity should be treated as requiring explicit security clearance. Evidence:

- The homepage provides only a hosting-provider support route and does not establish an independent operator identity.
- Behavioral testing completed 2 successful runs and detected no wallet-drainer, clipboard-hijacking, hidden-form, or cloaking behavior.
- The page contained 0 forms and 0 sensitive-form fields in the observed state.

Summary Verdict

The overall posture is **critical trust risk** with unverified operator identity and confirmed external reputation contradictions. The site may be viewed only as a passive placeholder, but it should not be treated as an established or trustworthy destination for sensitive interaction.

Infrastructure Integrity

The site resolves directly to NiobeBilisimHizmetleri - Niobe Bilisim Ltd. Sti. on AS42868 in Türkiye, with one visible origin candidate and no detected CDN or WAF. This direct hosting arrangement provides no substantial edge-layer mitigation against the external reputation risk.

Closing Assessment

Sensitive interaction should not proceed unless the domain’s operator, purpose, and security standing are independently validated; passive observation is the proportionate interim posture.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

About this assessment

A trust score summarises the evidence TrustSniffer could collect about efecopy.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
