Full analysis

Overview

JOOUST Centre for E-Learning is an academic portal for Jaramogi Oginga Odinga University of Science and Technology in Kenya, presenting online learning services, academic programmes, accreditation information, policies, applications, assessments, and institutional contact details to support university education delivery.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent university identity and education-focused purpose, with no phishing indicators, deceptive financial propositions, brand-impersonation signals, or suspicious interactive behavior. The site's sustained academic content and historical continuity are consistent with the stated institutional role.

- The homepage identifies "JOOUST Centre for E-Learning" and links its purpose to Jaramogi Oginga Odinga University of Science and Technology.
- The site presents learning-management, assessment, collaboration, programme, accreditation, policy, and contact content rather than unusual monetization features.
- The domain was registered in 2018 and is approximately 7.88 years old.
- Its archive contains 559 snapshots spanning 2019–2026, covering 8 years.

Regulatory Verification Notes

The site provides institutional background, academic-programme information, accreditation references, policies, and university contact details. No specific licensing or registration number is stated in the supplied page evidence; for an academic institution, this is a limited disclosure point requiring administrative confirmation rather than an indication of deception. External reputation checks found no malicious or suspicious classification, and the domain is associated with an academic Kenyan namespace.

- Hosted on AS36914 (Kenya Education Network - Kenya Education Network, KE).
- TLS certificate issued by YR2 using domain validation (DV), valid to 2026-09-03.
- The site's stated accreditation and policy materials appear on its academic-information pages.
- The site is ranked within the global top one million by the supplied traffic measure.

What to Verify Next

For institutional or enrolment decisions, confirm the relevant programme and accreditation status through the university's official administrative channels and the applicable Kenyan education registry. Independently confirm

contact and application procedures before committing material funds.

- The homepage provides programme, accreditation, policy, and contact sections for follow-up.
- The business model is described as university e-learning and academic-programme delivery, with no unusual monetization pattern identified.

Summary Verdict

The website presents as a legitimate, established, and trustworthy university e-learning service. Its coherent institutional identity, sustained academic purpose, clean reputation, and stable technical operation support normal interaction, including account login and standard use.

Infrastructure Integrity

The supplied evidence directly identifies the hosting network and valid TLS protection. No separate CDN, WAF, or origin-IP posture is established, so no additional infrastructure mitigation is inferred.

Closing Assessment

Normal academic browsing, login, applications, and routine account activity are appropriate, subject to ordinary institutional and programme verification for consequential enrolment decisions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [ejooust.ac.ke](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
