Full analysis

Overview

This website is Eland Mall, an official Korean online retail marketplace presenting fashion and lifestyle products from brands including SPAO, ROEM, MIXXO, New Balance, and SHOOPEN, alongside home goods, food, electronics, beauty, children's products, sports items, travel products, promotions, and account-based shopping services.

Scam/Impersonation Risk

No contradictions were observed. The site's extensive retail catalog, ordinary shopping mechanics, brand-specific merchandising, discounts, customer-service functions, and absence of phishing, impersonation, financial-manipulation, or cryptocurrency indicators are consistent with a legitimate established retailer. External reputation checks found no malicious or suspicious detections, and the domain has a meaningful global traffic footprint.

- Domain registration: 2003-03-01; approximately 23.44 years old.
- Web archive: 3,573 snapshots from 2023-03-12 through 2026-05-19, spanning 4 tracked years.
- External reputation: 0 malicious detections, 0 suspicious detections, and traffic rank 151363 within the top 1 million.

Regulatory Verification Notes

The supplied content presents a consumer-commerce business rather than a regulated financial service. No regulated license or license number is claimed in the reviewed material; this is a limited disclosure point for ordinary corporate and consumer-protection due diligence, not evidence of fraud or an identity contradiction. The registered owner and registrar are consistent with a long-established commercial domain, while the site's transport security is valid and current.

- Registered owner: E-LAND WORLD Co. Ltd.; registrar: MAILPLUG Inc.
- Hosted on AS16509 (AMAZON-02 - Amazon.com, Inc., US).
- TLS certificate issued by Amazon RSA 2048 M04, validation level DV, valid through 2027-01-24.

What to Verify Next

For procurement or higher-value commercial engagement, confirm the applicable corporate, consumer-protection, returns, payment, and delivery terms through the site's customer-service and checkout flows, and independently confirm any organizational details required by internal policy. Normal account login and standard shopping use are appropriate.

- The homepage provides login, membership, customer-service, order-delivery, wishlist, and cart functions.
- The reviewed page contains no sensitive external form destination, hidden form, wallet connection, or cryptocurrency functionality.
- Two behavioral runs completed successfully without cloaking, clipboard hijacking, wallet-drainer activity, or hidden forms.

Summary Verdict

This is a high-trust, established retail website with a legitimate business presentation and no observed scam or impersonation contradiction. The available evidence supports normal interaction, including account login and standard transactions.

Infrastructure Integrity

The site is protected by AWS CDN/WAF infrastructure. Observed addresses were CDN edge servers on AS16509, with no origin-server candidate identified; this reduces direct origin exposure and provides a mitigating infrastructure control, but is not by itself proof of legitimacy.

Closing Assessment

The site is suitable for ordinary retail engagement, subject to routine organizational checks for transaction value, purchasing authority, and applicable consumer-protection requirements.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about elandmall.co.kr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
