Full analysis

Overview

Electromall.ma is a Moroccan online retailer offering appliances, electronics, phones, computers, home-comfort products, and gaming items priced in Moroccan dirhams, with add-to-cart purchasing for ordinary consumer transactions.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or malicious reputation findings were observed. The site presents a coherent retail storefront, with visible contact details and social links, and its behavior showed no login form, hidden sensitive form, wallet activity, cloaking, or suspicious scripts. Its established operating history and clean external reputation further support a legitimate identity.

- The homepage provides a structured ecommerce catalog and add-to-cart purchasing.
- The domain was registered on 2019-10-26 and is approximately 6.77 years old.
- Archive records show 67 snapshots spanning 2019–2025, covering 7 years.
- The domain holds global traffic rank 507560 and is within the top 1 million.

Regulatory Verification Notes

The site appears to operate as a conventional Moroccan retailer rather than a regulated financial service. No licensing claim or registration number is presented in the available content, which is a minor disclosure gap requiring ordinary commercial verification rather than an indication of deception. The available third-party context contains no broker match or adverse reputational finding.

- The homepage identifies retail categories and prices in MAD, with no financial-product claims.
- Hosted on AS13335 (Cloudflare).
- TLS certificate issued by WE1, using DV validation, valid to 2026-10-27.
- The site's transport and behavioral checks completed successfully without malicious findings.

What to Verify Next

Before a significant purchase, confirm the seller's current legal trading details, delivery and returns terms, and payment-recipient identity through the site's published commercial documentation and an independent contact route. Standard account login and ordinary shopping interactions are appropriate.

- The storefront exposes a conventional product-sales workflow rather than a sensitive financial or wallet workflow.
- The homepage publishes a telephone contact and social-media links.
- The observed interaction surface contained no sensitive form or external password destination.

Summary Verdict

Electromall.ma is an established, legitimate, and trustworthy ecommerce website with a coherent commercial purpose and no observed scam or impersonation contradictions. Normal interaction, including account login and standard purchasing activity, is appropriate.

Infrastructure Integrity

Cloudflare provides the site's CDN/WAF protection, and the observed addresses were CDN edge servers rather than an exposed origin address. This reduces direct infrastructure exposure and is a mitigating security factor, but it is not by itself proof of legitimacy.

Closing Assessment

Prospective customers may proceed with normal browsing, account use, and purchases, applying standard consumer checks for order terms and payment records.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about electromall.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
