

Is electromre.com legit? TrustSniffer's high-trust assessment: 93/100

electromre.com

Verdict

93
OUT OF 100

HIGH TRUST

electromre.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not ScamLow Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Spanish appliance outlet website listing discounted, reconditioned and outlet products with prices, add-to-cart buttons, financing and contact details. Contains account login and contact form, store address and phone, cookie consent. No investment or crypto activity detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

ElectroMRE is a Spanish online appliance outlet presenting new, discounted, outlet, and reconditioned products for consumer purchase, with catalog browsing, shopping-cart functionality, financing information, store-pickup options, and customer contact facilities.

Scam/Impersonation Risk

No scam, phishing, impersonation, blacklist, or identity-contradiction signals were observed. The homepage presents a coherent consumer-retail model rather than an investment or cryptocurrency proposition: appliances are listed with prices, product categories, add-to-cart controls, and ordinary account and contact functions. The available external reputation checks found no malicious detections or abuse reports, although coverage was partial. The site's apparent legitimacy is therefore supported by converging content and reputation evidence, while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage identifies the business as an appliance outlet and displays discounted, outlet, and reconditioned products with product-detail and add-to-cart functions.
- Domain registration records show registration on 2019-12-20, making the domain approximately 6.67 years old.
- Available external checks recorded zero abuse reports, no malicious or suspicious detections, and no blacklist or phishing match.

Regulatory Verification Notes

The reviewed content describes ordinary ecommerce activity rather than a financial or investment service. Financing is mentioned, but the supplied pages do not establish whether it is provided directly by the merchant or by a separate finance provider; any applicable consumer-credit disclosures should therefore be confirmed. The apparent site identity is evidence-consistent but remains independently unverified. The registration record contains the organization name Manuel Ruiz Electronics S.L.; this is a registration artifact and should not be treated as conclusive proof of the operator's identity. No adverse broker-context match was present.

EVIDENCE

- The homepage and retail content describe sales of household appliances, store pickup, delivery, and financing rather than regulated investment products.
- The site's hosting is identified as AS197712, CDmon - 10dencehispahard, S.L., ES.
- The site uses a valid DV TLS certificate issued by YR1, valid to 2026-10-23.

What to Verify Next

Before credential or payment interactions, independently confirm the merchant's legal identity and physical trading details through an authoritative business source. Review the applicable returns, warranty, delivery, and cancellation terms, and confirm which entity provides any financing and what consumer protections apply. Contact details should be validated through an independent route rather than relying solely on information presented within the site.

EVIDENCE

- The site's contact area publishes a store address and telephone number that can be checked independently.
- The homepage provides account-login and checkout-related forms, making merchant, payment, and account-control checks directly relevant.
- The content identifies card, Bizum, and WhatsApp-related payment arrangements, warranting confirmation of the final payment channel and protection available for each transaction.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate ecommerce website. This conclusion supports normal retail browsing and ordinary site interaction, but it does not independently verify the real-world operator.

Infrastructure Integrity

The site is directly hosted by CDmon - 10dencehispahard, S.L. on AS197712 in Spain, resolving to 185.66.41.202. No CDN or WAF vendor was detected, so the infrastructure provides conventional direct hosting rather than an additional edge-protection layer; this posture is neither proof of legitimacy nor, by itself, evidence of misconduct.

Closing Assessment

Proceed with ordinary independent merchant-identity, return-policy, and payment-protection checks before submitting credentials or completing payments.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of electromre.com.

- The request stayed on electromre.com. It was not redirected to another domain. CLEAR
- Registration is published under 10DENCEHISPAHARD, S.L. CLEAR
- DNS for this domain is served by cdmon.net, across 5 name servers. NOTED
- The registration is paid up to 2026-12-20. NOTED
- The earliest public archive of this site is from 2020-07-23. CLEAR
- It is hosted on CDmon, from a server in ES. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [electromre.com](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
