Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Elektroshop Wagner is an established German online retailer presenting more than 85,000 electrical, household, heating, smart-home, photovoltaic, and related products, supported by customer accounts, product comparison, shipping, payment, returns, and customer-service functions. Its apparent business model is conventional ecommerce based on product sales and associated delivery or service transactions.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious reputation findings were observed. The site's detailed retail catalogue, customer-account functions, returns information, legal links, and consistent ecommerce presentation support an authentic commercial purpose. Normal interaction, including account login and standard purchasing activity, is appropriate.

- The homepage presents a coherent German ecommerce operation with more than 85,000 products and customer-service functionality.
- Page analysis recorded no red flags, no suspected brand impersonation, and no sensitive-form or hidden-form indicators.
- The domain was registered in 2003 and is approximately 22.6 years old; its archive contains 984 snapshots spanning 2003–2025 across 23 tracked years.

Regulatory Verification Notes

The legal and customer-information areas provide the expected ecommerce framework, including returns, shipping, payment, privacy, and legal information. No specific financial or other regulatory licence is claimed, which is consistent with the presented retail business model; any applicable commercial-registration or consumer-law disclosures should be confirmed as part of ordinary supplier due diligence. No adverse broker-reputation match was identified.

- The homepage links to customer-help, shipping, returns, payment, privacy, and legal-information pages.
- The site is ranked within the global top one million websites, with a recorded rank of 134696.
- TLS is present with DV validation, issued by R13, and valid through 2026-08-24.

What to Verify Next

Before a material commercial order, confirm the legal operator and any applicable registration details on the legal-information page against an independent business registry, and confirm official support channels through

an established offline or independently sourced route. Standard order, payment, account, and returns records should be retained.

- The legal-information page is the appropriate source for the operator and business disclosures.
- The contact and help pages provide the channels to be cross-checked independently.
- The site's transport encryption is currently valid through 2026-08-24.

Summary Verdict

The site presents a legitimate, established, and trustworthy ecommerce posture with no observed contradiction or impersonation concern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is served through Akamai's CDN/WAF infrastructure, with observed addresses operating as CDN edge servers and no origin candidates identified. This provides a meaningful protective layer against direct origin exposure, while remaining a mitigating infrastructure characteristic rather than proof of legitimacy.

- Hosted on AS20940, AKAMAI-ASN1 – Akamai International B.V., NL.
- Four observed addresses were identified as Akamai edge IPs; zero likely origin IPs were identified.
- The TLS certificate uses issuer R13 with DV validation and expires 2026-08-24.

Closing Assessment

The site is suitable for ordinary browsing, account access, and ecommerce transactions; routine supplier and transaction-record checks remain appropriate for higher-value purchases.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of elektroshopwagner.de.

- The request stayed on elektroshopwagner.de. It was not redirected to another domain. CLEAR
- DNS for this domain is served by akam.net, across 6 name servers. NOTED
- The earliest public archive of this site is from 2003-12-27. CLEAR
- It is hosted on AKAMAI-ASN1, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about elektroshopwagner.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
