

Is eliascatalan.cl safe? TrustSniffer's low-trust assessment: 40/100

eliascatalan.cl

Verdict

40

OUT OF 100

LOW TRUST

eliascatalan.cl is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Spanish-language website for Elias Catalan, a personal trainer offering in-person and online training, corporate workplace exercise programs (paua laboral), detailed pricing tables for various plan durations, certifications, contact info (email, phone, social handle) and coverage areas within Santiago.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website is a Spanish-language local-service site for Elias Catalan, presenting personal-training services delivered in person and online, corporate workplace exercise programs, plan pricing, professional background, contact details, and coverage areas within Santiago.

Scam/Impersonation Risk

The site presents a coherent personal-training business model and the reviewed pages contain no observed brand-impersonation, identity-inconsistency, login-form, wallet-connect, or cryptocurrency indicators. However, this benign page presentation is outweighed by confirmed external blacklist detections and malicious reputation findings, creating a material risk for sensitive interactions despite the absence of obvious fraudulent content on the homepage. No identity contradiction was observed, but the real-world operator identity remains unverified. The website's contact page also publishes **[contact address not supplied in evidence]**?

EVIDENCE

- The homepage describes personal training, online coaching, corporate “pausa laboral” programs, pricing plans, certifications, and Santiago coverage.
- External reputation telemetry records 3 malicious and 1 suspicious detections, with blacklist status confirmed by 2 sources.
- Domain continuity is 6.02 years; historical coverage runs from 2020-08-13 through 2026-05-10 across 7 tracked years.
- Interactive testing recorded 2 successful runs, 3,923 maximum DOM changes after interaction, 6 external POST requests, and 8 external XHR requests, with no hidden forms or wallet activity detected.

Regulatory Verification Notes

The site identifies the service provider as Elias Catalan and describes education, prior professional experience, service plans, invoicing or receipt-based payment, and corporate offerings. The available material does not establish an independently verified legal entity, regulated status, or licensing authority; the disclosure position is therefore unclear rather than affirmatively verified. The external blacklist result is a serious reputational signal, not a regulatory determination, while the absence of a broker-dataset match provides no regulatory endorsement. Transport security and hosting identity are technically identifiable, but those controls do not validate the operator or business claims.

EVIDENCE

- The curriculum section states studies at Universidad Ucinf from 2006–2008 and Universidad Gabriela Mistral from 2011–2015, alongside prior work at named gyms, hotels, and sports clubs.
- No license authority or license number is claimed in the reviewed business-model information.
- The site's hosting infrastructure is AS13335, Cloudflare, Inc. (US); the TLS certificate is issued by WE1 using DV validation and is valid to 2026-11-14.
- Page analysis recorded a 200 response, 13,051 characters of visible text, no structured data, and missing meta-description data.

What to Verify Next

Before any sensitive interaction, an independent channel should confirm that Elias Catalan is the person or business operating the domain and that the stated training qualifications and invoicing arrangements are genuine. Any applicable Chilean business, tax, consumer-service, or professional requirements should be checked through the relevant official registry rather than relying solely on the website. Payment should be limited to a method offering dispute protection, and credentials should not be reused on this site. The official contact channels should also be confirmed through an independently obtained source.

EVIDENCE

- The homepage provides the claimed professional history, service descriptions, prices, and coverage area for independent cross-checking.
- The commercial description states that revenue comes from recurring plans, individual sessions, and corporate contracts.
- The reviewed page contains no sensitive submission form, password form, or external password destination.
- External reputation findings require validation of the domain's current status before payment or account-related activity.

Summary Verdict

This is a **low-trust website with elevated sensitive-interaction risk**. Its ordinary local-service presentation does not resolve the confirmed external reputation contradictions or the lack of independently verified operator identity. The appropriate posture is cautious and security-forward, with no basis to treat legitimacy as proven.

Infrastructure Integrity

Cloudflare provides the site's CDN and WAF protection, and all observed addresses were Cloudflare edge infrastructure rather than a directly exposed origin. This reduces direct hosting exposure and may help absorb routine abuse, but it is only a mitigating technical control and does not establish the site's legitimacy.

Closing Assessment

Passive review may continue, but credentials, personal information, and payments should be withheld until the operator, applicable business requirements, and payment arrangements have been independently confirmed.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.

Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION

- The structure of the page changed sharply while it was loading.

Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of eliascatalan.cl.

- The request stayed on eliascatalan.cl. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2020-08-13. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about eliascatalan.cl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
