

Is elimupi.com a scam? TrustSniffer's high-risk assessment: 0/100

elimupi.com

Verdict

0

OUT OF 100

CRITICAL RISK

elimupi.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

This is a parked domain landing page (Hostinger DNS/parking) offering links to hosting, site builders, VPS, domain search and business email; no service login or transactional flows present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	11 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	33% confidence AbuseIPDB, 27 reports; shared hosting inflates reports	CLEAR
Domain age	7 months old Most scam domains are under a year old	WATCH
Web archive	Archived since 2017 Public history exists	CLEAR
Certificate	Encrypted connection Issued by YE2	NOTED

The page as captured

<https://elimupi.com/>

Registered at  **HOSTINGER**

If this is your domain, you can manage it in your Hostinger account.

What elimupi.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a parked-domain landing page presented through Hostinger's DNS and parking system. It promotes hosting, AI-assisted website building, VPS services, domain searches, and business email, but it does not present an active service, user account area, transaction flow, or substantive operating business.

Scam/Impersonation Risk

The site's own homepage appears functionally benign and does not contain a login form, credential-collection mechanism, financial solicitation, or detected brand-impersonation content. However, the domain is subject to a **confirmed blacklist** and multiple external malicious detections, which materially outweigh the limited reassurance provided by its parked-page presentation. The associated abuse reports concern shared hosting infrastructure rather than being conclusively attributed to this domain, but the broader domain-level detections remain a decisive risk signal. No conflicting legal-entity names were observed, and no direct impersonation claim is established by the page content.

EVIDENCE

- Homepage: identifies the site as a parked domain on the Hostinger DNS system and offers hosting-related referral links rather than an operating service.
- External reputation telemetry: 11 malicious detections from 16 evaluated detections, with a Tier-1 threat detection present; blacklist status is true.
- Hosting-IP reputation telemetry: 27 reports concerning IP address 2.57.91.91, attributed to shared infrastructure operated by Hostinger International Limited.
- Registration and archive telemetry: WHOIS records a creation date of 2026-01-24 and an age of 0.57 years; historical captures total 13 snapshots from 2017-09-08 through 2022-10-24, with 6 years tracked.

Regulatory Verification Notes

The available page does not identify an operating company, provide a license or registration number, or explain a regulated business purpose. Because the page is only a parked hosting-referral landing page, this is a material disclosure gap for any party seeking to associate the domain with a financial, technology, or other regulated operator. Independent identity verification remains unavailable from the supplied evidence. The valid transport certificate confirms encrypted delivery, but its domain-validation level does not establish the identity or regulatory standing of the operator.

EVIDENCE

- Homepage: contains Hostinger parking text and commercial links for web hosting, website builders, VPS hosting, domain search, and business email, but no company or licensing disclosure.
- Transport encryption: TLS certificate issued by YE2 with DV validation, valid to 2026-10-07.
- Domain registration: registrar recorded as HOSTINGER operations, UAB; expiration date recorded as 2027-01-24.
- Page-authority telemetry: OpenPageRank score 2, classified in the mid band.

What to Verify Next

Before any substantive engagement, an independent party should establish whether the domain has a legitimate current operator and whether it is intended to provide anything beyond domain parking. Any claimed corporate, licensing, or regulated-service association should be checked directly against the relevant official registry, using independently sourced contact details rather than information supplied only by the landing page. The destination and ownership of any subsequent service links should also be confirmed before following them or providing information.

EVIDENCE

- Homepage: presents a placeholder page rather than a clearly identified operating service.
- Homepage: contains no login form, sensitive form, or direct transaction flow requiring immediate interaction.
- Independent verification requirement: the supplied page provides no operator, license, or registration reference against which a regulatory check could be completed.

Summary Verdict

The website should be treated as a **critical trust risk**. Its apparent parked-page business model does not resolve the confirmed external reputation contradictions, and the available evidence does not independently establish a legitimate real-world operator or suitable basis for sensitive interaction.

Infrastructure Integrity

The domain resolves directly to infrastructure operated by Hostinger International Limited in Cyprus, with no detected CDN or WAF edge and one likely origin IP. This hosting arrangement is a neutral delivery fact and does not provide legitimacy assurance; the absence of an identified protective edge also offers limited mitigation against reputation concerns.

EVIDENCE

- Hosting infrastructure: served from AS47583 (AS-HOSTINGER — Hostinger International Limited, CY), registered through RIPE NCC, with one resolved IP address, 2.57.91.91.
- CDN/WAF posture: unique IP count 1, edge IP count 0, likely origin IP count 1, and no detected CDN vendor.
- TLS infrastructure: certificate validation level DV, issuer YE2, valid through 2026-10-07.

Closing Assessment

Substantive engagement should remain suspended until the domain's operator, intended purpose, and any external destinations have been independently confirmed through authoritative channels.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 27 reports on hosting IP 2.57.91.91 (Hostinger International Limited, Content Delivery Network), 33% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of elimupi.com.

- The request stayed on elimupi.com. It was not redirected to another domain. CLEAR
- Registration is published under HOSTINGER operations, UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-24. NOTED
- The earliest public archive of this site is from 2017-09-08. CLEAR
- It is hosted on AS-HOSTINGER, from a server in CY. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about elimupi.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
