Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a Turkish e-commerce storefront presented as “Elmas Reklam Ürünleri,” offering digital printing machinery, printing inks, replacement parts, and related supplies through product listings, shopping-cart functionality, account links, and basic contact and store-policy pages.

Scam/Impersonation Risk

The site presents as an ordinary printing-equipment retailer, and the visible pages do not show phishing forms, credential-harvesting behavior, brand impersonation, or other overt page-level fraud indicators. However, this benign presentation is outweighed by confirmed external threat detections: the domain is blacklisted, 14 security evaluations classified it as malicious, one classified it as suspicious, and Fortinet, Kaspersky, and Sophos were among the flagged vendors. The available evidence does not establish an identity contradiction or direct impersonation of another brand, but the external detections create a material risk for sensitive interactions. The domain’s long registration history is therefore not sufficient to neutralize the current reputation findings.

EVIDENCE

- The homepage presents “Elmas Reklam Ürünleri” as a Turkish retailer for digital printing machines, inks, and spare parts, with no visible phishing or credential-harvesting indicators.
- External reputation telemetry records 14 malicious detections and 1 suspicious detection from 20 effective evaluations; Fortinet, Kaspersky, and Sophos are named among the flagged vendors.
- The registration record identifies the domain as created on 2013-04-16 and approximately 13.35 years old.

Regulatory Verification Notes

The homepage, About, Contact, account, cart, and store-policy areas support an identifiable commercial storefront, but the available material does not independently verify the operating entity or establish a regulated status. The site’s stated commercial scope includes solvent, ecosolvent, and UV inks; digital printing, laminating, cutting-plotter, and UV machines; and machine heads, wipers, filters, dampers, belts, cartridges, cleaning materials, cables, sensors, adapters, and plotter blades. No license, registration number, or licensing authority is disclosed in the supplied page evidence. This is a transparency and merchant-verification gap rather than, by itself, proof of fraud. The registration record names Isimtescil Bilisim A.S. as registrar and ÖZGÜR ÜSTÜNDAĞ as registrant, but those details do not independently prove that the person or record holder operates the storefront.

EVIDENCE

- The homepage and product navigation identify the business as a seller of digital printing machinery, inks, and replacement parts.
- The visible page structure includes About, Contact, Account, Cart, and basic store-policy functions, while no license number or licensing authority is shown in the supplied content.
- The site’s transport encryption uses a DV certificate issued by Sectigo Public Server Authentication CA DV R36, valid through 2027-01-20.

What to Verify Next

Before any purchase, account creation, or submission of payment information, the prospective counterparty should independently confirm the business identity, physical trading details, invoice issuer, refund terms, and payment beneficiary through an offline or independently sourced channel. Any claimed commercial registration or sector authorization should be checked directly with the relevant Turkish registry or authority. Payment should be limited to methods offering meaningful dispute and recovery protections, and downloaded files or unusual browser prompts associated with the domain should be avoided.

EVIDENCE

- The Contact and About areas are the appropriate pages for reconciling the storefront name with the legal name shown on commercial documents.
- The cart and account functions create potential purchase and account-interaction points that warrant independent merchant confirmation.
- The supplied social presence consists of links to Instagram and Facebook, which can be checked for consistent business details and independent continuity.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction** on the basis of the confirmed external threat and blacklist findings. Although the storefront is coherent and commercially plausible, the available evidence does not support treating it as a trusted destination for credentials, account access, or financial activity.

Infrastructure Integrity

The site resolves directly to infrastructure operated by CIZGI - CIZGI TELEKOMUNIKASYON ANONIM SIRKETI, TR, on AS34619 in Türkiye, without a detected CDN or WAF layer and with one likely origin address. The valid Sectigo certificate provides transport protection, but neither ordinary hosting nor DV TLS establishes site legitimacy; the directly exposed hosting posture offers limited mitigation against the external reputation findings.

EVIDENCE

- Hosted on AS34619, operated by CIZGI - CIZGI TELEKOMUNIKASYON ANONIM SIRKETI, TR, in Türkiye.
- Infrastructure telemetry reports 1 unique IP, 0 edge IPs, and 1 likely origin IP; no CDN is detected.

Closing Assessment

The appropriate enterprise disposition is to suspend sensitive interaction and require independent merchant and payment validation before reconsidering any commercial engagement.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of elmasyedekparca.com.

- The request stayed on elmasyedekparca.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Isimtescil Bilisim A.S. [CLEAR](#)
- DNS for this domain is served by natrohost.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2031-04-16. [CLEAR](#)
- The earliest public archive of this site is from 2013-06-07. [CLEAR](#)
- It is hosted on CIZGI, from a server in TR. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [elmasyedekparca.com](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
