

Is eltrece tv.com.ar legit? TrustSniffer's high-trust assessment: 96/100

eltrece tv.com.ar

Verdict

96

OUT OF 100

HIGH TRUST

eltrece tv.com.ar appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 55%.

What this site appears to be

Established Argentinian entertainment news portal (eltrece) publishing TV program episodes, celebrity stories and videos with visible social links and app promotion; no immediate signs of phishing or financial fraud.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is an established Argentine entertainment and news portal presenting television programs, full episodes, live content, celebrity stories, videos, and short-form media; its apparent business model is advertising, app promotion, and cross-promotion with related media properties.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent news and entertainment service under the eltrece brand, with program-specific editorial content, video material, and links to established social platforms rather than financial solicitations, cryptocurrency functions, or deceptive payment flows. The reviewed page contained no phishing indicators, sensitive form, hidden form, wallet-connection behavior, or suspected brand impersonation. Available external reputation checks were clean, and the site's established domain continuity and substantive content are consistent with a legitimate operating website, although the real-world operator identity is not independently verified.

EVIDENCE

- The homepage identifies the service as eltrece and publishes television episodes, entertainment news, program schedules, and videos.
- The homepage contained no login form, sensitive form, hidden form, or untrusted form destination in the observed capture.
- External reputation checks recorded no malicious or suspicious detections, no blacklist hit, and no abuse reports; the domain was present within the top one million of observed global traffic sites.
- Domain registration records show 2013-09-05 and an age of 12.94 years.

Regulatory Verification Notes

The site presents a media and entertainment business rather than a regulated financial service, so no financial license claim was identified in the supplied page content. This is a limited disclosure observation rather than evidence of misconduct. The site's apparent identity is supported by consistent branding, mature editorial content, visible social presence, and a strong overall trust assessment, but the operator connection remains likely rather than independently verified. No adverse broker or other third-party reputational match was identified.

EVIDENCE

- The homepage's stated business model is online news and entertainment publishing, including television programming, videos, and celebrity coverage.
- The homepage displays links to Instagram, Facebook, X/Twitter, YouTube, TikTok, and WhatsApp, providing a consistent public-facing media presence.
- The site is served on AS13335 by Cloudflare, Inc.; the hosting country is the United States.
- The site's TLS certificate is issued by WE1 with DV validation and is valid to 2026-10-19.

What to Verify Next

Before credential submission or any payment-related interaction, independently confirm the operating entity through an authoritative corporate or media-sector source and review the site's applicable terms, privacy information, and account-use conditions. Any application promoted by the site should be obtained through an independently confirmed official distribution channel, and payment-protection terms should be checked before a transaction is initiated.

EVIDENCE

- The homepage exposes an “Ingresar” navigation path, while the observed capture did not contain an active login form.
- The page promotes television and app-related content rather than presenting a clearly defined regulated financial or merchant transaction flow.
- The reviewed content contains visible social-channel links that can support independent confirmation of official communications.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradiction. The site is suitable for ordinary browsing and content consumption; real-world operator identity should nevertheless be treated as likely rather than proven.

Infrastructure Integrity

Cloudflare CDN and WAF protection front the website, with observed edge addresses 104.17.245.239 and 104.17.246.239 on AS13335; no origin candidate was observed. This reduces direct exposure of the hosting origin and is a mitigating infrastructure characteristic, but it is not by itself proof of legitimacy.

Closing Assessment

Normal content use is proportionate to the assessed posture; credentials or payments should be preceded by ordinary independent checks of the relevant entity, terms, and available payment protections.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of eltrece tv.com.ar.

- The request stayed on eltrece tv.com.ar. It was not redirected to another domain. CLEAR
- Registration is published under nicar. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-18. NOTED
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about eltrece tv.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
