- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

EpicDeals.co.za is a South African ecommerce and recommerce retailer presenting tested new and pre-owned phones, laptops, tablets, watches, gaming products, appliances, and accessories, alongside device trade-ins, used-device purchasing, corporate rental services, multiple payment methods, and nationwide delivery.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence. The homepage describes a coherent retail business with product categories, pricing, trade-in services, delivery, returns, contact details, and company identity; no phishing, impersonation, or deceptive financial signals were identified. External reputation checks recorded no malicious or suspicious detections, blacklist findings, or abuse reports.

- The homepage presents a conventional electronics and recommerce catalogue with products, prices, payment options, delivery information, and returns.
- The About Us, Trade-In, Sell To Us, Repairs, FAQ, and Contact areas support a consistent retail operating model.
- The domain was registered on 2014-07-06 and is approximately 12.08 years old; archival records contain 200 snapshots spanning 2016–2026 across 11 tracked years.

Regulatory Verification Notes

The site presents itself as an ecommerce retailer rather than a regulated financial service and does not claim a financial licence in the supplied evidence. This is a limited disclosure point for any transaction requiring regulated-entity verification, but it does not contradict the established retail identity. Registration records associate the domain with Tech Revival (Pty) Ltd through DIAMATRIX C.C., while the site's transport encryption is valid and issued by a known certificate issuer.

- The homepage identifies the business as “Epic Deals South Africa” and describes electronics sales, trade-ins, and related corporate services.
- The domain record lists Tech Revival (Pty) Ltd as the organization and DIAMATRIX C.C. as registrar.
- The site is served from AS13335 (Cloudflare); TLS is issued by WE1 at DV level and is valid to 2026-09-22.

What to Verify Next

For a high-value purchase, the prospective customer should confirm the applicable delivery, returns, warranty, and trade-in terms on the relevant site pages and independently match payment instructions to the retailer's

published channels. Where a transaction involves a regulated service outside ordinary retail, the relevant South African registry should be checked separately.

- The site provides dedicated FAQ, Trade-In Info, Repairs, Contact, and returns-related content for transaction due diligence.
- The stated business model is retail and recommerce, with no regulated financial-service licence claim supplied for verification.

Summary Verdict

The website presents as a legitimate, established, and trustworthy ecommerce business with a coherent operating model, sustained historical presence, clean external reputation, and no observed identity or fraud contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the website, with observed traffic resolving to Cloudflare edge infrastructure rather than an exposed origin address. This provides a meaningful defensive layer against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Standard browsing, account activity, and ordinary purchasing are appropriate, subject to normal transaction checks for unusually valuable orders.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of epicdeals.co.za.

- The request stayed on epicdeals.co.za. It was not redirected to another domain. CLEAR
- Registration is published under DIAMATRIX C.C.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-06. NOTED
- The earliest public archive of this site is from 2016-07-25. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about epicdeals.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
