

Is epiczagoratours.com a scam? TrustSniffer's high-risk assessment: 0/100

epiczagoratours.com

Verdict

0

OUT OF 100

CRITICAL RISK

epiczagoratours.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Epic Zagora Tours, a Morocco-based tour operator offering fossil, geological and cultural tours with contact phone numbers, email and references to secure payment and review platforms.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

What epiczagoratours.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2014.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This is a travel and tourism website presenting Epic Zagora Tours as a Morocco-based, family-run operator offering guided fossil, geological, cultural, day-trip, and car-rental services, with the apparent business model of selling tour packages and accepting booking or payment enquiries through its contact channels.

Scam/Impersonation Risk

The site's visible content is consistent with a conventional tour operator and does not display a login form, hidden sensitive form, wallet connection, or overt phishing mechanism. However, this benign presentation is outweighed by confirmed external threat detections: the domain is blacklisted by multiple sources, and several security vendors identified malicious activity. The available evidence does not establish brand impersonation, phishing, or conflicting legal identities, but the confirmed blacklist and malicious detections create a serious risk for sensitive interaction. The site should therefore not be treated as trustworthy merely because its pages appear professionally aligned with tourism services.

EVIDENCE

- The homepage is categorized as travel and tourism and describes Morocco fossil, mineral, geological, and cultural tours.
- External reputation telemetry recorded 5 malicious detections from 10 effective detections, with Fortinet and Sophos among the flagged vendors.
- The domain is listed by both VT and an external blacklist source; a separate browser-safety check returned no malicious result.
- Behavioral inspection found no login form, hidden form, wallet connection, or clipboard-hijacking activity.

Regulatory Verification Notes

The site presents an apparent small family-run tourism business, but the operator's real-world identity remains unverified. Its pages identify tour offerings and contact routes, yet no licensing authority or license number is claimed in the supplied content, leaving a material disclosure gap for a business that may arrange paid travel services. This is a verification issue rather than, by itself, proof of fraud. The domain's long registration continuity and valid transport encryption are positive technical facts, but they do not independently validate the operator or its commercial authorization.

EVIDENCE

- Domain registration began on 2014-02-12T12:19:22Z; the domain age is 12.53 years; registrar: NameCheap, Inc.
- Web-archive coverage records 145 snapshots spanning 2014-05-15 to 2026-06-10, across 13 tracked years.
- The site is served from AS22612, NAMECHEAP-NET - Namecheap, Inc., US.
- TLS uses Sectigo Public Server Authentication CA DV R36, validation level DV, and is valid through 2027-01-23T23:59:59+00:00.

What to Verify Next

Before any booking or payment commitment, the prospective customer should independently confirm the operator's registered business identity, physical operating details, tour-provider authorization where applicable, cancellation terms, and the ownership of any payment recipient. Contact routes should be validated through an independent source rather than relying solely on information presented on the website. Payment should only proceed through a method offering meaningful dispute and chargeback protection.

EVIDENCE

- The homepage provides navigation to About Us and Contact Us pages, which are the relevant locations for confirming the operator's legal and operational details.
- The site presents booking and payment intent but no sensitive web form was detected during inspection.
- The site's stated business model is commercial tour sales with related services, making independent merchant-identity and payment-recipient checks relevant.

Summary Verdict

The overall posture is **critical trust risk**. The site has a coherent tourism presentation and several ordinary technical characteristics, but confirmed malicious detections and blacklist status materially undermine confidence in its suitability for sensitive interaction. Operator identity is not independently verified.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no CDN detected and no edge-IP layer identified. It is hosted by Namecheap, Inc. on AS22612 in the United States; this hosting arrangement is a neutral infrastructure fact and does not offset the external reputation findings.

Closing Assessment

Passive viewing may be retained for information gathering, but login, credential submission, booking payment, and other financial interaction should be withheld until the operator and payment arrangements have been independently validated.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of epiczagoratours.com.

- The request stayed on epiczagoratours.com. It was not redirected to another domain. CLEAR
- Registration is published under NameCheap, Inc.. CLEAR
- DNS for this domain is served by namecheaphosting.com, across 2 name servers. NOTED
- The registration is paid up to 2027-02-12. NOTED
- The earliest public archive of this site is from 2014-05-15. CLEAR
- It is hosted on NAMECHEAP-NET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about epiczagoratours.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
