

Is equipexitos.com safe? TrustSniffer's low-trust assessment: 40/100

equipexitos.com

Verdict

40

OUT OF 100

LOW TRUST

equipexitos.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Equipexitos is an online store in Bolivia selling professional gastronomy and kitchen equipment (baking, refrigeration, processing machines) with product listings, prices in Bolivianos, contact phone numbers and branch information. The site provides newsletter signup and ordering/quotation options.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://equipexitos.com/

What equipexitos.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Equipexitos is an ecommerce website presenting itself as a Bolivian distributor of professional gastronomy and foodservice equipment, with catalogues for baking, refrigeration, processing, pizzerias, cafés, restaurants, and related businesses, monetized through product sales, quotations, after-sales service, and spare-parts support.

Scam/Impersonation Risk

The site's visible content is consistent with a conventional commercial-equipment retailer and does not present obvious credential-harvesting, crypto, wallet, or brand-impersonation features. However, the domain has a confirmed blacklist hit, which is a material contradiction requiring a security-forward posture despite the otherwise coherent storefront. Interactive testing also detected one hidden form and substantial post-interaction DOM change; these behaviors are not, by themselves, proof of malicious intent, but they increase uncertainty around the site's interaction surface. The available evidence therefore supports limiting sensitive interaction until the external warning and the site's operational ownership are independently resolved.

EVIDENCE

- The homepage presents equipment categories, Boliviano-denominated prices, purchase and quotation workflows, and a stated Bolivia-focused business proposition.
- The site's form analysis recorded one hidden form, while no password-external form, wallet activity, clipboard hijacking, cloaking, or suspicious inline script was detected.
- External reputation testing recorded `external\_blacklist: true`; separate checks recorded one malicious and one suspicious detection, while Google Safe Browsing did not record a malicious result.
- The domain was registered on 2014-05-06 and is approximately 12.3 years old.

Regulatory Verification Notes

The site includes About, branches, contact, terms-and-conditions, and privacy-policy pages, and publishes telephone and branch information. Nevertheless, the available evidence does not independently verify the legal entity operating the store, and no licensing or registration number is identified for confirmation. Because the business model is ordinary equipment retail rather than an inherently regulated financial service, this is primarily a disclosure and merchant-verification issue, not evidence of a scam by itself. The confirmed blacklist signal remains the principal reputational concern; a separate broker-intelligence dataset did not match the site.

EVIDENCE

- The site navigation exposes `/nosotros`, `/sucursales`, `/contacto`, `/terminos-y-condiciones`, and `/politicas-de-privacidad`.
- The homepage and contact-related content publish the telephone number `(+591) 76767030` and refer to local branches in Bolivia.
- The site's hosting infrastructure is AS31898, operated by ORACLE-BMC-31898 — Oracle Corporation, US.
- The transport certificate is issued by YR1 at DV validation level and is valid to 2026-11-08.

What to Verify Next

Before credentials, payment details, or high-value commercial orders are submitted, the prospective counterparty should confirm the operator's legal name, tax or commercial registration, physical branch details, and applicable consumer or commerce registrations through independent Bolivian records. Payment should use a method offering dispute or chargeback protection, with quotations, invoices, delivery terms, warranty coverage, and return conditions retained. The reported external warning should also be escalated to the organization's security team for domain and transaction screening, and official contact channels should be confirmed through an independently obtained source.

EVIDENCE

- The legal and identity pages are present, but the supplied analysis does not independently verify the operating entity.
- The site offers both direct purchase and quotation paths, creating separate payment and fulfilment verification points.
- The domain's archive record contains 85 snapshots spanning 2010–2025, covering 16 tracked years.
- The site resolved to one IP address in the United States, with no CDN detected.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The storefront appears commercially coherent, but the confirmed external warning and unresolved identity connection prevent the available evidence from supporting normal trust in sensitive transactions.

Infrastructure Integrity

The site is directly hosted on Oracle infrastructure rather than behind a detected CDN or WAF, with one identified origin candidate and no edge-IP layer. Its valid DV TLS certificate protects transport confidentiality, but this infrastructure configuration is a mitigating technical fact only and does not establish operator legitimacy.

Closing Assessment

Treat the site as untrusted for credentials, payment information, and high-value orders unless independent merchant, registration, and payment-protection checks are completed and the external warning is satisfactorily explained.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page contained a form a visitor cannot see.
Behaviour in a sandbox rule:BEHAV_HIDDEN_FORMS
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.
Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION
- The page replaced a large part of its own content after loading.
Behaviour in a sandbox rule:BEHAV_DOM_CHANGE_HIGH

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of equipexitos.com.

- The request stayed on equipexitos.com. It was not redirected to another domain. CLEAR
- Registration is published under Domain.com - Network Solutions, LLC. CLEAR
- DNS for this domain is served by somospixs.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-06. NOTED
- The earliest public archive of this site is from 2010-07-11. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about equipexitos.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
