

Is espaceaquatique-lernee.fr a scam? TrustSniffer's high-risk assessment: 0/100

espaceaquatique-lernee.fr

Verdict

0

OUT OF 100

CRITICAL RISK

espaceaquatique-lernee.fr shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A French-language editorial review of the Casinozer online casino and esports betting operator describing games, markets, bonuses, payment methods (including crypto), limits, customer support, and licensing (Curacao). The page promotes deposit-based bonuses and includes affiliate-style calls to action.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<http://espaceaquatique-lernee.fr/>

What espaceaquatique-lernee.fr served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2014.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website at espaceaquatique-lernee.fr is a French-language editorial and affiliate-review site focused on online casinos, esports bookmakers, bonus offers, payment methods, and operator evaluations. Its apparent business model is to direct visitors toward third-party gambling platforms, including deposit-based promotional offers, rather than provide the underlying gambling service itself.

Scam/Impersonation Risk

The site carries a critical security concern because external reputation checks recorded malicious detections and confirmed blacklist status. No conflicting legal-entity names or direct brand-impersonation indicators were observed, but the external detections are sufficient to make sensitive interaction inappropriate. The homepage also promotes Casinozer through affiliate-style calls to action, describes more than 3,100 casino games, esports and sports betting, crypto-related payments, and a welcome offer requiring a minimum €20 deposit; these mechanics create financial exposure, while the stated promotional claims are not supported by equivalent evidence on the page. No login form, hidden sensitive form, wallet-drainer behavior, or cloaking was observed.

during the available technical interaction, but those benign observations do not offset the confirmed external reputation risk.

EVIDENCE

- The homepage presents a Casinozer review with affiliate-style “play now” calls to action, deposit-based bonuses, crypto payment references, and esports and sports-betting coverage.
- The homepage states that activating the welcome offer requires a minimum deposit of €20 and includes “terms and conditions apply” language.
- External reputation telemetry recorded 5 malicious and 1 suspicious detections; the domain was also identified by 2 external blacklist sources.
- Registration telemetry records creation on 2022-04-12 and an age of 4.36 years through registrar RANXPLOER; archival records show 78 snapshots from 2014-08-28 through 2025-02-21 across 12 tracked years.

Regulatory Verification Notes

The page discusses Casinozer licensing in Curaçao, but this is an on-page reference to the promoted gambling operator and does not independently establish the legal identity, licensing, or regulatory status of the review site itself. The available identity verification remains insufficient for attributing the website to a verified real-world operator, and the site's governance and disclosure position is unclear. The affiliate presentation creates a material commercial-bias consideration: editorial evaluations and bonus promotions may be connected to referral or advertising revenue. The available third-party broker context did not produce a matching broker record, which is neutral context rather than a regulatory finding.

EVIDENCE

- The homepage identifies the content as a Casinozer casino and esports review and refers to Curaçao licensing for the promoted operator.
- The homepage does not provide a verified legal entity, licensing authority, or registration number for the review site itself.
- Hosting telemetry identifies AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The site's TLS certificate is issued by WE1 at DV validation level and is valid to 2026-09-21T15:18:03+00:00.

What to Verify Next

Before any sensitive interaction, an independent party should identify the site's actual operator and confirm that any stated gambling-licensing information belongs to the promoted operator rather than to the review publisher. Licensing should be checked directly against the relevant Curaçao registry or regulator, and payment protections, withdrawal conditions, bonus restrictions, and dispute channels should be confirmed independently. Until those checks are complete, credentials, payment details, deposits, and account creation should not be submitted through links promoted by the site.

EVIDENCE

- The homepage contains no login form or sensitive submission form in the captured page.
- Technical interaction completed 2 successful runs with 0 wallet-connection runs, 0 wallet-sensitive runs, and 0 wallet-drainer runs.
- The captured page contains 38 console errors, providing a concrete reason to treat the site's presentation and technical operation as requiring independent validation.

Summary Verdict

The overall posture is **critical trust risk**. The available evidence does not support treating the website as an established or independently verified entity, and the combination of confirmed external reputation contradictions with financially promotional content makes sensitive interaction unsuitable.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses were CDN edge addresses rather than an independently visible origin. This provides a mitigating layer against direct origin exposure, but protective hosting infrastructure is not evidence that the website or its commercial claims are legitimate.

EVIDENCE

- Observed edge addresses were 104.21.88.75, 172.67.174.8, 2606:4700:3031::ac43:ae08, and 2606:4700:3035::6815:584b; no origin candidate was observed.
- All four observed addresses resolved through AS13335, Cloudflare, Inc., United States.

Closing Assessment

The appropriate posture is to keep interaction read-only and withhold credentials, financial information, deposits, and account creation unless independent operator, licensing, and payment-protection checks produce satisfactory results.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status UNVERIFIED

Identity score 30/100

Identity verification confidence 50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of espaceaquatique-lernee.fr.

- The request stayed on espaceaquatique-lernee.fr. It was not redirected to another domain. [CLEAR](#)
- Registration is published under RANXPLOER. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-04-12. [NOTED](#)
- The earliest public archive of this site is from 2014-08-28. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about espaceaquatique-lernee.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
