

Is estudiolynch.com a scam? TrustSniffer's high-risk assessment: 0/100

estudiolynch.com

Verdict

0

OUT OF 100

CRITICAL RISK

estudiolynch.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Spanish-language profile page for Estudio Lynch, a Buenos Aires-based law firm claiming over 50 years of service. Provides practice areas, team references, contact phone numbers and postal address. No forms or transactional flows visible.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://estudiolynch.com/>

What estudiolynch.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

EstudioLynch.com presents a Spanish-language profile for Estudio Lynch, a Buenos Aires-based law firm offering legal advisory and representation to companies and individuals through practice-area information, team references, contact details, and an apparent retainer, hourly-billing, and case-fee model.

Scam/Impersonation Risk

The site's visible content is an informational law-firm profile with no login page, sensitive form, payment flow, wallet connection, or other transactional mechanism, and its page-level content contains no apparent impersonation indicators or conflicting legal names. That benign presentation is materially outweighed by confirmed external threat detections: the domain is **blacklisted**, with multiple security services classifying it as malicious or suspicious. The result is a serious contradiction between the professional appearance of the page and the external threat intelligence, making credential submission, financial activity, or reliance on the site for sensitive engagement inappropriate. The domain's established registration history does not resolve the security concern.

EVIDENCE

- External reputation assessment recorded 13 malicious detections and 2 suspicious detections, including detections from three major security vendors; the domain was also listed by two external blacklist sources.
- The homepage contains 0 forms, no sensitive-form fields, no login form, and no wallet or credential-handling behavior.
- The domain was registered in 2009 and is 16.77 years old; archival records show 12 snapshots spanning 2011–2025, covering 15 years of tracking.

Regulatory Verification Notes

The website presents Estudio Lynch as a legal-services practice, but the available material does not establish an independently verified connection between that presentation and a real-world operator. No professional license, registration number, or licensing authority is claimed on the reviewed pages. This is a regulatory and disclosure verification gap rather than standalone proof of fraud, but it is significant given the confirmed external security listings. The registration record identifies dattatec.com SRL as registrar and lists Javier de Olmos as the registrant; those records should not be treated as proof that the registrant operates or represents the law firm. The site uses valid domain-validated transport encryption, which protects the connection but does not validate legal status or operator identity.

EVIDENCE

- The firm profile and contact material provide legal-service descriptions, practice-area references, team references, telephone numbers, and a postal address, but no license number or licensing authority is stated.
- Domain registration record: registrar dattatec.com SRL; registrant and organization listed as Javier de Olmos.
- Hosting telemetry: served from AS27823, Dattatec.com, AR.
- TLS telemetry: DV certificate issued by YR2, valid to 2026-10-05T04:12:39+00:00.

What to Verify Next

Before any sensitive engagement, independently confirm that Estudio Lynch is a currently operating legal practice through the relevant Argentine professional or business registry, and confirm that the named lawyers are affiliated with it. Telephone and address details should be validated through an independently sourced channel rather than relying solely on the website. Any request for credentials, confidential case material, advance fees, or payment instructions should be checked through an offline or separately verified contact route.

EVIDENCE

- The contact page publishes telephone numbers and a postal address that can support an independently sourced callback and address check.
- The profile page identifies firm members and legal practice areas, providing specific details for cross-checking against professional records.

Summary Verdict

The overall posture is **critical risk for sensitive interaction**. Although the site is coherently presented as a professional legal-services profile, confirmed external security listings create a decisive trust failure, and the operator’s real-world identity remains unverified.

Infrastructure Integrity

The site is directly hosted in Argentina on Dattatec infrastructure, with no trusted CDN or WAF and no edge-IP layer identified; infrastructure resolution found two IP addresses, zero edge IPs, and two likely origin candidates. The absence of an intermediary protection layer increases direct-hosting exposure, but infrastructure characteristics neither establish legitimacy nor explain away the external threat detections.

EVIDENCE

- Infrastructure resolution identified 2 unique IPs, 0 edge IPs, and 2 likely origin IP candidates.
- Network registry: LACNIC; hosting country: Argentina.

Closing Assessment

The appropriate posture is passive observation only until the firm’s identity, professional standing, and contact channels have been independently validated; credentials, confidential information, and financial transactions should not be submitted through the site.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of estudiolynch.com.

- The request stayed on estudiolynch.com. It was not redirected to another domain. CLEAR
- Registration is published under dattatec.com SRL. CLEAR
- DNS for this domain is served by donweb.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-17. NOTED
- The earliest public archive of this site is from 2011-02-01. CLEAR
- It is hosted on AS27823, from a server in AR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about estudiolynch.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
