Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Enugu State University of Science and Technology's website is the official-looking digital gateway for a public university, presenting institutional information, academic programmes, admissions resources, student services, school-fee information, research activities, and university news.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, historical continuity, or external reputation signals. The homepage presents a coherent university purpose, including faculties, departments, academic calendars, student medical services, an e-library, portal access, and institutional leadership information; it contains no phishing, deceptive financial, crypto, or suspicious interaction indicators.

- The homepage identifies Enugu State University of Science and Technology and describes its academic and institutional mission.
- The site's historical record contains 589 archive snapshots spanning 2007–2026, covering 20 years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site presents itself as an academic institution rather than a financial or regulated-services provider. Its pages identify the university, governing council, principal officers, faculties, departments, programmes, and student services, but the supplied evidence does not establish a specific licensing or registration number; this is a limited disclosure point for institutional verification, not evidence of deception. No adverse broker-reputation match was identified.

- The homepage navigation includes About, History, Governing Council, Principal Officers, Management, Faculties, Departments, Programmes, and Contact pages.
- The domain was registered in 2009 through Icecool Contracts Limited.
- The site is hosted on AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- Its TLS certificate is issued by WE1 at DV validation level and is valid through 2026-10-24.

What to Verify Next

For formal institutional, admissions, or fee-related engagements, confirm any required accreditation or administrative details through the relevant Nigerian education authority or the university's independently published offline contact channels. Standard website interaction, including account login and portal use, is appropriate.

- The site provides admissions, school-fee, portal, iTranscript, and eLibrary pathways.

- No sensitive form or untrusted form destination was detected on the analysed homepage.
- The observed browser behaviour showed no hidden forms, wallet activity, clipboard hijacking, cloaking, or suspicious scripts.

Summary Verdict

The website has the posture of a legitimate, established, trustworthy public-university site. Its coherent institutional purpose, sustained historical presence, clean reputation, and stable technical operation support normal interaction and standard use.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer against direct exposure of the origin infrastructure. Observed addresses were Cloudflare edge servers, and the origin server IP was not observable in this analysis.

- Cloudflare edge IPs observed: 172.67.173.248 and 104.21.30.232.
- Hosting provider: CLOUDFLARENET – Cloudflare, Inc., US; ASN: AS13335.

Closing Assessment

Normal browsing, account login, portal access, and ordinary university-related actions are appropriate, subject to routine institutional checks for high-value or formally consequential transactions.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of esut.edu.ng.

- The request stayed on esut.edu.ng. It was not redirected to another domain. CLEAR
- Registration is published under Icecool Contracts Limited. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2031-07-13. CLEAR
- The earliest public archive of this site is from 2007-10-01. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about esut.edu.ng at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
