

Is ethix.id legit? TrustSniffer's high-trust assessment: 100/100

ethix.id

Verdict

100

OUT OF 100

HIGH TRUST

ethix.id appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 60%.

What this site appears to be

Corporate homepage for PT. Ethix Distribusi Nusantara promoting e-commerce fulfillment, warehousing, inventory, marketplace-store, technology, delivery, and shipment-tracking services. It includes company news, a standard contact form, telephone and email contacts, WhatsApp outreach, a Jakarta street address, and a privacy-policy reference.

- Public web-archive history exists since 2023.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Ethix is a corporate service website for PT. Ethix Distribusi Nusantara, presenting business-to-business e-commerce fulfilment, warehousing, marketplace-store operations, inventory and supply-chain technology, delivery management, and shipment tracking. Its apparent business model is to generate service enquiries from merchants seeking outsourced logistics and operational support rather than to solicit immediate online payments.

Scam/Impersonation Risk

No identity contradictions, impersonation indicators, phishing behaviour, or conflicting brand claims were observed. The named company, Jakarta business address, telephone and messaging channels, service descriptions, and historical web presence form a coherent identity. External threat-reputation checks were clean, while the contact form neither requested sensitive information nor submitted data to an untrusted destination.

- The homepage identifies PT. Ethix Distribusi Nusantara and presents a consistent corporate logistics proposition without deceptive financial, cryptocurrency, or account-recovery prompts.
- The homepage contained one standard contact form, with no login form, hidden form, password collection, or untrusted form destination detected.
- The domain record shows registration in 2022—specifically 12 September 2022—and an age of approximately 3.88 years, with registration extending to 12 September 2028.
- Historical records contain 137 archive snapshots spanning 24 March 2023 to 20 May 2026, covering 4 tracked years; no suspicious repurposing or semantic drift was established.

Regulatory Verification Notes

The website provides a named Indonesian legal entity, a physical address in Jakarta, business contact details, and a privacy-policy reference. It does not present itself as a financial, investment, brokerage, or other regulated financial service, and no licence claim or licence number is published; on the supplied evidence, this is not a scam indicator. No matching broker record was identified in the supplied third-party broker context, which is consistent with the stated logistics business but does not independently establish corporate registration.

- The homepage expressly names PT. Ethix Distribusi Nusantara and publishes a Jakarta street address alongside telephone, email, and WhatsApp contact options.
- The homepage describes fulfilment and logistics services and directs prospective clients toward service enquiries rather than an immediate financial transaction.

- The site is served from AS13335 (Cloudflare, Inc.); its DV TLS certificate was issued by WE1 and is valid until 16 October 2026.
- The homepage references a privacy policy, while the supplied page content contains no financial-regulatory licence claim, issuing authority, or licence number.

What to Verify Next

Before entering a material commercial relationship, procurement and vendor-risk teams should confirm the named company in the relevant Indonesian corporate registry, reconcile its registered address and authorised representatives with contracting documents, and validate bank-account instructions through an independently obtained business channel. Service-level commitments should also be reviewed for custody of inventory, subcontracted delivery arrangements, data handling, liability allocation, and dispute resolution.

- The homepage offers prospective customers multiple published contact methods, providing channels that can be independently reconciled during vendor onboarding.
- The service description indicates that Ethix may manage warehousing, orders, inventory connectivity, and delivery coordination, making operational custody and data-processing terms relevant to due diligence.
- The homepage states that delivery management includes 15 last-mile delivery options, indicating potential reliance on multiple delivery partners whose responsibilities should be defined contractually.

Summary Verdict

The website is assessed as legitimate, established, and trustworthy, with coherent corporate identity, sustained provenance, clean external reputation, and benign observed behaviour. The evidence supports normal interaction, including account login and standard use.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure. The observed addresses—172.67.135.205 and 104.21.7.75—were Cloudflare edge endpoints, so the origin server was not exposed during the analysis; this reduces direct infrastructure exposure but is treated as a security control rather than independent proof of legitimacy.

Closing Assessment

Prospective users may engage with the site normally, while organisations entering material commercial arrangements should apply their standard supplier-onboarding, contract, and payment-control procedures.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ethix.id.

- The request stayed on ethix.id. It was not redirected to another domain. CLEAR
- Registration is published under PT Digital Registra Indonesia. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-09-12. CLEAR
- The earliest public archive of this site is from 2023-03-24. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ethix.id at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
