

Is eulophiella.com legit? TrustSniffer's high-trust assessment: 90/100

eulophiella.com

Verdict

90

OUT OF 100

HIGH TRUST

eulophiella.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 70%.

What this site appears to be

Official-looking lodge website in French describing Eulophiella Lodge Andasibe: bungalows, restaurant, activities, contact details and newsletter. Contains address, phone and email for booking. No login, no payment forms visible in the captured text.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Eulophiella Lodge Andasibe is a French-language hospitality website presenting a forest lodge in Andasibe, Madagascar, with bungalows, restaurant services, nature activities, booking information, and a newsletter, operating as an accommodation and guest-stay business.

Scam/Impersonation Risk

No contradictions were observed: the available evidence identifies no phishing, impersonation, malicious reputation, or conflicting legal-entity signal. The site's content is consistent with a conventional lodge website, and its pages describe accommodation, dining, activities, location, and booking rather than credential harvesting or financial abuse. Behavioral testing recorded hidden form elements, but no login form, external password submission, wallet activity, cloaking, or other phishing indicator; this is best treated as a limited implementation observation rather than evidence of impersonation.

EVIDENCE

- The homepage presents Eulophiella Lodge Andasibe as a lodge offering bungalows, a restaurant, activities, and booking information.
- The site's contact and booking content provides ordinary hospitality contact details rather than a credential or investment solicitation workflow.
- The domain was registered on 2009-08-12 and is approximately 17.04 years old.
- Web-archive records contain 478 snapshots spanning 2009–2026, with 18 years tracked and continuous historical coverage.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate hospitality website, but the real-world operator identity is not independently verified. The site presents the commercial name Eulophiella Lodge Andasibe, while registration data identifies the organization as Viona; this supports an identity check without constituting an identity contradiction. No licensing claim or registration number is presented in the supplied site content, which is a transparency point for ordinary hospitality due diligence rather than evidence of a scam. Available external reputation context was clean, and no broker-related match was identified.

EVIDENCE

- The contact and booking pages identify the operating hospitality brand as Eulophiella Lodge Andasibe and describe its accommodation services.
- The domain registrar is LWS dba Ligne Web Services.
- The site is served from AS210403, LWS - Groupe LWS SARL, FR.
- The transport certificate is issued by YR2 at DV validation level and is valid to 2026-09-29 02:52 UTC.

What to Verify Next

Before credential or payment interactions, an interested party should independently confirm that Viona is the entity responsible for the lodge, obtain the applicable hospitality licensing or registration details where relevant, and review cancellation, refund, and payment-protection terms. Booking contact channels should also be confirmed through an independently sourced route, such as a tourism listing, established travel intermediary, or offline contact.

EVIDENCE

- The site supplies booking and contact information but does not expose a payment form in the captured content.
- The site includes a contact/newsletter form and no sensitive form was identified.
- The operator identity remains unverified despite the site's established content and technical history.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence strongly consistent with an established, apparently legitimate accommodation business. The principal residual uncertainty concerns independent confirmation of the real-world operator rather than any observed scam or impersonation contradiction.

Infrastructure Integrity

The site resolves directly to hosting infrastructure operated by LWS - Groupe LWS SARL in France, without a detected CDN or WAF layer; this provides a conventional, attributable hosting arrangement but offers less traffic-filtering protection than an edge-protected deployment. The site uses valid DV TLS issued by YR2, which supports transport integrity but does not independently establish the operator’s identity.

Closing Assessment

Normal browsing and ordinary booking consideration are proportionate to the assessed posture, subject to independent merchant-identity, cancellation, and payment-protection checks before credentials or payment details are submitted.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of eulophiella.com.

- The request stayed on eulophiella.com. It was not redirected to another domain. CLEAR
- Registration is published under LWS dba Ligne Web Services. CLEAR
- DNS for this domain is served by lwsdns.com, across 4 name servers. NOTED
- The registration is paid up to 2027-08-12. NOTED
- The earliest public archive of this site is from 2009-09-23. CLEAR
- It is hosted on LWS, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about eulophiella.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
