

Is europarquets.be a scam? TrustSniffer's high-risk assessment: 0/100

europarquets.be

Verdict

0

OUT OF 100

CRITICAL RISK

europarquets.be shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Local Belgian parquet restoration and aerogommage business page (Euro-Parquets) with contact details, brief about text, and cookie consent; no sign-in, payment collection, or investment claims.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.europarquets.be/>

What europarquets.be served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a Belgian local-services page for Euro-Parquets, presenting parquet-flooring restoration and aérogommage services for stairs, floors, furniture, and related surfaces. It identifies Christophe De Broux, provides telephone and email contact details, and appears designed to generate direct customer enquiries and one-time service contracts rather than provide online accounts, investments, or payment services.

Scam/Impersonation Risk

The principal risk is not the service description itself, which contains no observed investment, login, payment, or cryptocurrency features, but the external security evidence associated with the domain. The domain is **blacklisted** by the listed external sources, with seven malicious detections and threat flags from Fortinet and Sophos. This is a confirmed contradiction that materially outweighs the otherwise ordinary local-business presentation. No conflicting legal-entity names or direct brand-impersonation indicators were observed, so the available evidence does not establish an identity contradiction; nevertheless, the site should be treated as unsuitable for sensitive interaction until the security findings are independently resolved.

EVIDENCE

- External reputation assessment: 7 malicious detections, with Fortinet and Sophos among the flagged vendors; blacklist status confirmed.
- Domain registration record: registered 2024-06-05 (~2.21 years old).
- Historical records identify the domain as first seen on 2018-08-03 and last seen on 2023-12-24, with 6 years tracked.

Regulatory Verification Notes

The homepage presents a plausible local-services identity, naming Euro-Parquets and Christophe De Broux, giving a Belgian VAT identifier, and describing parquet repair, installation experience, and aérogommage work. That identity remains unverified as an independently established real-world operator. No licensing claim, licence number, or regulatory authority is presented in the supplied site content; for a trades business this is a transparency and verification matter, not by itself evidence of fraud. The presence of valid transport encryption and mainstream hosting infrastructure supports technical availability but does not validate the operator or neutralize the external blacklist findings.

EVIDENCE

- Homepage: identifies “Euro-Parquets,” Christophe De Broux, Branchon, telephone contact, and “TVA: BE0688.302.991.”
- Homepage: describes specialization in aérogommage of stairs, parquet floors, and furniture.
- Hosting infrastructure: served from AS16509 (AMAZON-02 - Amazon.com, Inc., US).
- TLS certificate: issued by YR1, DV validation, valid to 2026-11-11.

What to Verify Next

The operator’s legal identity and VAT details should be checked independently against the relevant Belgian business and tax registries, without relying solely on information displayed by the website. Any proposed service should be documented through a written quotation or invoice that identifies the contracting entity, scope of work, payment beneficiary, and applicable cancellation or remediation terms. Contact channels should also be confirmed through an independent route before arranging work or sharing personal information, and any unresolved external security warning should be escalated to the hosting or domain provider for clarification.

EVIDENCE

- The homepage is the supplied source for the displayed business name, named individual, location, and VAT identifier requiring independent confirmation.
- The homepage describes direct customer contracts and telephone/email contact rather than a formal online transaction workflow.
- The site content contains no supplied licence, regulatory-authority, or independently verified registration disclosure.

Summary Verdict

The overall posture is **critical trust risk**. Although the website presents a coherent local-service narrative and lacks visible high-risk transaction mechanics, confirmed external malicious detections and blacklist status make its legitimacy and safe handling unsuitable for sensitive interaction on the current evidence.

Infrastructure Integrity

The website is protected by AWS CDN/WAF infrastructure, and the observed addresses are AWS edge servers rather than an independently exposed origin. This provides a meaningful defensive layer against some network-level threats, but edge protection is only a mitigating technical control and cannot establish the operator’s identity or override the confirmed reputation risk.

Closing Assessment

Interaction should be limited to passive review until the external security findings and the contracting entity have been independently resolved; credentials, personal information, and financial transactions should not be submitted through the site.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of europarquets.be.

- The request stayed on europarquets.be. It was not redirected to another domain. CLEAR
- DNS for this domain is served by combell.net. NOTED
- The earliest public archive of this site is from 2018-08-03. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about europarquets.be at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
