Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a public-facing professional service site for Executor Judecătoresc Șortan Ioan Călin, presenting judicial enforcement services in the Cluj jurisdiction, including debt recovery, legal notifications, asset execution, procedural guidance, fees, required documents, and auction information.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent judicial-executor identity, describes services under Law 188/2000, provides a physical Cluj-Napoca address and telephone contacts, and contains no detected phishing, impersonation, malicious-content, or suspicious interaction pattern. The available evidence is therefore consistent with an established, apparently legitimate professional website, although the operator's real-world identity is not independently verified.

EVIDENCE

- The homepage identifies “Executor Judecătoresc Șortan Ioan Călin,” states that the practice has operated since 2007, and describes competence within the Court of Appeal Cluj area.
- The homepage and service-navigation pages describe judicial enforcement, notifications, required documents, fees, and auctions without presenting a login form, payment form, wallet connection, or external sensitive-data destination.
- External reputation checks recorded no malicious or suspicious detections, no abuse reports, and no matched broker-reputation profile.

Regulatory Verification Notes

The site provides substantive legal and procedural information, including references to Law 188/2000 and the statutory duties of a judicial executor. It identifies the named practitioner and publishes contact details, but the available content does not provide an independently verified license or registration number; this is a transparency item for ordinary professional verification rather than evidence of deception. The site's limited search-visibility and absent structured metadata are presentation weaknesses, not indicators of an identity contradiction. Its domain and transport security nevertheless provide supporting evidence of continuity and operational stability.

EVIDENCE

- Domain registration: 2011-05-03; approximately 15.31 years old; registrar: ICI - Registrar.
- Archival records indicate continuity from 2012-01-09 through 2026-05-11.
- Hosted on AS12302 (Vodafone_Ro - Vodafone Romania S.A., RO), registered through RIPE NCC.
- TLS certificate issued by YR2, validation level DV, valid to 2026-10-13.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm that the named executor and office details correspond to the relevant Romanian professional or judicial registry, obtain and review the applicable fee and auction documentation, and confirm official contact channels through an independent source. Payment arrangements should use documented, payment-protected procedures appropriate to the engagement.

EVIDENCE

- The site includes dedicated pages or navigation items for legislation, fees, required documents, auctions, the executor, and contact information.
- The published office address is Calea Dorobanților, nr. 21, ap. 6, 400117, Cluj-Napoca, with two telephone numbers.
- The site states that the practice acts within the jurisdiction of the Court of Appeal Cluj and relies on the legal framework of Law 188/2000.

Summary Verdict

The overall posture is **high trust and low risk**, with the evidence converging on an established, apparently legitimate professional-service website and no observed scam, phishing, malicious-content, or impersonation contradictions. The classification remains qualified because independent real-world operator verification is incomplete.

Infrastructure Integrity

The site resolves directly to a Vodafone Romania S.A. hosting environment in Romania rather than a detected CDN or WAF edge network. This provides a clear hosting attribution and reduces ambiguity about the serving infrastructure, although hosting arrangements alone are only a mitigating technical signal and do not establish organizational legitimacy.

Closing Assessment

Normal informational use is proportionate to the evidence; independent professional-identity, documentation, and payment-protection checks should be completed before credentials or funds are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of executorsortan.ro.

- The request stayed on executorsortan.ro. It was not redirected to another domain. CLEAR
- Registration is published under ICI - Registrar. CLEAR
- DNS for this domain is served by proitbs.ro, across 2 name servers. NOTED
- The earliest public archive of this site is from 2012-01-09. CLEAR
- It is hosted on Vodafone_Ro, from a server in RO. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [executorsortan.ro](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
