Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

expo2025shop.jp presents itself as the EXPO2025 official online store, offering priced licensed merchandise such as apparel, accessories, plush items, books, food, and household goods, with promotions, customer accounts, login, cart, and checkout functionality.

Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no phishing, impersonation, malicious-content, or blacklist indicators. The site's commercial presentation is coherent with a conventional merchandise retailer, and the homepage contains ordinary product, pricing, shipping-promotion, account, and customer-support functions rather than high-risk financial or cryptocurrency mechanics. Behavioral testing recorded some external-network and post-interaction page changes, but no cloaking, hidden forms, externally submitted password forms, wallet activity, or drainer behavior; these observations were not treated as evidence of impersonation. Legitimacy is therefore apparent and consistent with an established site, although the real-world operator connection is not independently verified.

EVIDENCE

- The homepage identifies the service as an EXPO2025 official online store and lists merchandise categories, prices, promotions, shipping notices, account functions, and customer-support links.
- The domain was registered on 2022-12-05 and is approximately 3.68 years old.
- The site has 91 archive snapshots spanning 2023-03-02 through 2026-04-20, covering 4 tracked years.
- External reputation checks recorded 0 malicious findings and 0 suspicious findings, with no detected phishing or brand-impersonation signal.

Regulatory Verification Notes

The site operates as a retail merchandise storefront rather than presenting a regulated financial service. No licensing claim or license number is supplied in the available site content; this is a disclosure point to confirm for merchant-accountability purposes, not evidence of a scam. The site provides dedicated information, FAQ, contact, and customer-support areas, but the available evidence does not independently establish the legal entity operating the store. A separate broker-reputation comparison produced no match, which is contextual reassurance only and not a licensing or regulatory determination. Confirmed infrastructure and reputation signals support an established-site interpretation, while identity verification remains incomplete.

EVIDENCE

- The site's hosting infrastructure is identified as AS16509, AMAZON-02 – Amazon.com, Inc., US.
- Transport encryption uses a GlobalSign GCC R6 AlphaSSL CA 2025 certificate with DV validation, valid through 2026-10-16T04:30:37+00:00.
- The homepage links to “このサイトについて” (site information), FAQ, and contact areas relevant to seller and customer-service disclosure.
- The site is included within the top one million domains by observed global traffic ranking, with no evaluated external provider reporting malicious activity.

What to Verify Next

Before credential or payment interactions, the prospective user should independently confirm the merchant's legal identity and relationship to EXPO2025 through an official event or merchant channel. The store's return, cancellation, delivery, and payment-dispute terms should be reviewed on the relevant information pages, and the payment method should provide normal buyer-protection and dispute mechanisms. Official support channels should be reached through independently sourced event or merchant information rather than relying solely on an on-site contact path.

EVIDENCE

- The site provides dedicated FAQ, contact, and site-information pages that can be checked against independently sourced merchant details.
- The homepage exposes separate login, account-registration, cart, and checkout functions, making credential and payment-protection checks directly relevant.
- The store publishes shipping thresholds, promotional conditions, product prices, and temporary support or dispatch interruptions that can be reconciled with the applicable purchase terms.

Summary Verdict

The website presents a high-trust, low-risk posture, and the available evidence is consistent with an established, apparently legitimate online store. No scam, phishing, impersonation, or other contradictory risk signal was observed. The classification supports normal retail interaction, subject to the stated uncertainty around independently verifying the real-world operator.

Infrastructure Integrity

The site is served through Amazon's content-delivery infrastructure, which provides a credible hosting environment and a mitigating layer against direct infrastructure exposure. This protection supports operational integrity but is not, by itself, proof of the operator's identity or commercial authority.

Closing Assessment

Ordinary independent merchant-identity, return-policy, and payment-protection checks should be completed before credentials or payment details are submitted.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of expo2025shop.jp.

- The request stayed on expo2025shop.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by makeshop.jp, across 2 name servers. NOTED
- The registration is paid up to 2026-12-31. NOTED
- The earliest public archive of this site is from 2023-03-02. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about expo2025shop.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
