

Is expressodelivery.com.br legit? TrustSniffer's high-trust assessment: 100/100

expressodelivery.com.br

Verdict

100

OUT OF 100

HIGH TRUST

expressodelivery.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 70%.

What this site appears to be

Portuguese-language landing page for Espresso Delivery, a Brazil-focused SaaS platform for restaurants and delivery businesses. It advertises digital menus, POS, order management, marketing automation, loyalty, CRM, WhatsApp tools, customer support, testimonials, fixed monthly pricing, and a 30-day satisfaction guarantee.

Evidence status and limitations

Evidence completeness: UNKNOWN

- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Espresso Delivery is a Brazil-focused SaaS platform for restaurants and delivery businesses, presenting digital menus, point-of-sale tools, order management, marketing automation, loyalty, CRM, WhatsApp support, implementation services, and fixed monthly subscriptions.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious detections were observed. The homepage presents an ordinary commercial software model with a contact form requesting business details rather than credentials or payment secrets. Its claims of 11 years in the market, more than 1,353 active clients, over 966,000 monthly orders, and more than 95% positive reviews are commercially material claims but are not, on the supplied evidence, indicators of impersonation or fraud.

- Homepage: Portuguese-language SaaS presentation with defined restaurant and delivery-management functions and no reported red flags.
- Homepage: No login form, hidden form, wallet activity, password-exfiltration form, or brand-impersonation signal detected.
- External reputation checks: 0 malicious and 0 suspicious detections across evaluated coverage; no confirmed threat-list match recorded.
- Domain registration: Registered 2012-05-18 and approximately 14.21 years old; 167 archive snapshots spanning 2012-11-30 through 2026-05-14, covering 15 years.

Regulatory Verification Notes

The site operates as a software subscription provider rather than presenting itself as a financial or regulated institution. The supplied page evidence does not identify a regulatory license or registration number; this is a limited disclosure item for business verification, not evidence of illegitimacy. The site's established continuity, clean external reputation, and identifiable infrastructure support its stated commercial identity.

- Homepage: Describes subscription SaaS services for restaurants and delivery businesses, including implementation and support.
- Homepage: Presents fixed monthly plans, customer testimonials, and a 30-day satisfaction guarantee.
- Hosting infrastructure: Served from AS16509, Amazon.com, Inc., United States.
- Transport encryption: TLS certificate issued by YR1 using DV validation, valid to 2026-09-28.

What to Verify Next

For procurement or materially significant engagement, confirm the contracting entity, applicable business registration, and service terms through the company's official documentation and an independently obtained contact route. Confirm that the selected subscription, implementation scope, data-handling terms, and satisfaction guarantee match the commercial agreement before execution.

- Homepage: Provides a specialist-contact workflow collecting name, company, phone, and email.
- Homepage: Identifies the service scope as digital menus, POS, marketing, CRM, loyalty, and delivery operations.
- Commercial presentation: Includes customer testimonials and a stated 30-day satisfaction guarantee.

Summary Verdict

The website presents as a legitimate, established, and trustworthy commercial SaaS provider with a coherent business model and no observed contradiction or impersonation signal. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed edge addresses on AS16509 and no origin candidate exposed in the analysis. This separation reduces direct origin exposure and is a mitigating infrastructure characteristic, although it does not independently establish legitimacy.

Closing Assessment

Standard engagement is appropriate, subject to ordinary procurement, contractual, and data-protection checks proportionate to the intended business relationship.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about expressodelivery.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
