Full analysis

Overview

Expresso São Miguel is a Brazilian B2B freight transportation and logistics website presenting shipment tracking, delivery estimates, quotations, pickup scheduling, customer and partner portals, regional operating units, and corporate information for business customers.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious detections were observed. The homepage presents a coherent logistics business model—fractionated freight transport, shipment tracking, delivery forecasting, digital invoicing, quotations, and collection scheduling—supported by operational locations and customer-service pathways. The site's long-running historical presence and consistent current business identity further support legitimacy.

- Domain registered on 2000-12-09 and approximately 25.66 years old.
- 320 archive snapshots spanning 2002–2026, covering 25 years.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist hit.

Regulatory Verification Notes

The institutional content identifies Expresso São Miguel and provides company infrastructure, regional units, customer services, an ethics and conduct code, and corporate information. The site does not state a license number or specific regulatory registration, which is a transparency item for confirmation where transport-sector authorization applies; it is not, by itself, evidence of impersonation or fraud. No separate broker-reputation match was identified.

- Hosting resolved to AS264958, identified as Expresso Sao Miguel S/A, Brazil.
- TLS certificate issued by GlobalSign GCC R6 AlphaSSL CA 2025, using DV validation and valid through 2026-12-10.
- The homepage provides “Quem somos,” “Institucional,” “Infraestrutura,” “Código de Ética e Conduta,” and “Unidades” content.

What to Verify Next

Confirm any transport-sector registrations applicable to the intended service with the relevant Brazilian authority, and independently validate the selected regional unit and commercial contact channel before entering into a material shipping arrangement.

- The homepage directs prospective customers to request quotations, schedule collections, and contact the nearest unit.
- The institutional navigation includes company, infrastructure, ethics, and regional-unit information but no stated license number.

Summary Verdict

The website presents as a legitimate, established corporate logistics provider with a high-trust posture and no observed scam or impersonation contradictions. Normal interaction, including account login and standard business use, is appropriate.

Infrastructure Integrity

The site resolves directly to one identified Brazilian hosting address on AS264958, operated by Expresso Sao Miguel S/A, without a CDN or WAF layer indicated. This provides a straightforward infrastructure relationship and does not introduce a material trust concern in the context of the confirmed identity and clean technical findings.

Closing Assessment

Standard business interaction is appropriate, with applicable transport authorizations confirmed as part of normal commercial due diligence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about expressosaomiguel.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
