

Is f5news.com.br legit? TrustSniffer's high-trust assessment: 100/100

f5news.com.br

Verdict

100

OUT OF 100

HIGH TRUST

f5news.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 75%.

What this site appears to be

Homepage of F5 News, an established Portuguese-language regional news outlet covering Sergipe, Brazil, and international topics. The page presents current articles, columns, sports and entertainment coverage, visibly labeled sponsored content, contact and advertising links, and a 2010–2026 copyright notice.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Portuguese-language regional news publisher covering Sergipe, wider Brazilian affairs, and international topics through news reporting, columns, sports, health, weather, culture, and entertainment content, supported by advertising and clearly labeled sponsored material.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or other scam indicators were observed. The site presents a mature editorial operation with identifiable contributors, current reporting, and a long, continuous publishing history. External reputation checks were clean, while behavioral inspection found neither sensitive forms nor deceptive collection mechanisms.

- The homepage identifies F5 News as a regional news and media outlet and displays current articles, named columnists, editorial sections, and labeled sponsored content.
- The domain was registered on 20 August 2010 and is approximately 15.96 years old; registration remains valid until 20 August 2028.
- The web archive contains 294 snapshots spanning 12 June 2011 to 25 April 2026, representing 16 tracked years with no material evidence of suspicious repurposing.
- Reputation telemetry recorded 0 malicious and 0 suspicious detections, no search-safety alert, no external blacklist match, and no reported abuse associated with the hosting address.

Regulatory Verification Notes

The site operates as a news and advertising publisher rather than as a financial, investment, or deposit-taking service. No licensing claim is presented, and none is inherently indicated by the observed business model. The registered owner is identified as F5 NEWS SERVIÇOS DE COMUNICAÇÃO LTDA, providing a corporate identity consistent with the F5 News presentation; however, the supplied page evidence does not establish whether formal company-registration details or an editorial-governance statement are published on dedicated legal pages.

- The homepage describes a conventional publishing model and provides advertising and contact pathways without soliciting deposits or promising financial returns.
- Sponsored material is visibly marked “Conteúdo Patrocinado,” distinguishing commercial content from ordinary editorial coverage.
- Domain-registration records name F5 NEWS SERVIÇOS DE COMUNICAÇÃO LTDA as the owner.

- No matching broker profile or financial-regulatory representation was identified in the supplied third-party context.

What to Verify Next

For advertising, syndication, or other contractual engagement, the contracting entity and authorized representative should be matched to the registered corporate name. Organizations relying on published reporting should also review the outlet’s correction, attribution, and sponsored-content practices, and confirm official communication channels independently before exchanging contractual or payment information.

- The homepage includes “Fale Conosco” and “Anuncie Conosco” pathways for contact and commercial engagement.
- The site separates reporting into defined subject areas and presents identifiable columnists, providing reference points for checking authorship and editorial accountability.
- The observed page contains no sensitive-data form, password form, hidden form, or form submission to an untrusted destination.

Summary Verdict

F5 News is a legitimate, established, and trustworthy regional news website. Its coherent publishing identity, sustained historical presence, clean external reputation, and benign observed behavior provide strong convergent support for normal interaction, including account login and standard use where such functions are offered.

Infrastructure Integrity

The site resolves directly to a likely origin address in Brazil rather than operating behind a detected CDN or WAF. Its identifiable domestic hosting and valid transport encryption support ordinary technical integrity, although this infrastructure posture is a mitigating operational signal rather than independent proof of legitimacy.

- The hosting infrastructure resolves to 170.80.189.15 on AS266390, operated by Tajo Tecnologia Ltda in Brazil.
- One likely origin IP and no CDN edge addresses were detected.
- The site’s DV TLS certificate was issued by ZeroSSL RSA DV SSL CA 2 and is valid through 29 September 2026.

Closing Assessment

Prospective users may interact with the site normally; organizations entering a commercial relationship should apply routine counterparty and payment-channel validation appropriate to any media vendor.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence	50%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of f5news.com.br.

- The request stayed on f5news.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns.br, across 2 name servers. NOTED
- The registration is paid up to 2028-08-20. CLEAR
- The earliest public archive of this site is from 2011-06-12. CLEAR
- It is hosted on AS266390, from a server in BR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about f5news.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
