Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Fara Media is a Persian editorial magazine focused on cinema, television, Turkish series, celebrity news, reviews, culture, technology, lifestyle, food, video, and podcasts, supported primarily by advertising, sponsored content, affiliate-style links, and audience engagement.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents substantial editorial content, broad subject categorization, social-media links, and only a search form; it shows no phishing, credential-harvesting, brand-impersonation, cryptocurrency, or financial-manipulation indicators. The site's published content is consistent with an established media operation rather than a deceptive transaction scheme.

EVIDENCE

- The homepage contains extensive magazine categories, articles, videos, podcasts, and lifestyle content.
- The homepage has one non-sensitive search form and no login or password-submission form.
- Domain history records 77 snapshots spanning 2019–2025, covering 7 tracked years.
- The domain was registered on 2018-11-28 and is 7.68 years old.

Regulatory Verification Notes

The reviewed content describes an editorial publication, not a regulated financial or investment service, and does not make a licensing claim. Its apparent commercial model—advertising, sponsored or advertorial material, affiliate-style links, and audience engagement—is compatible with online publishing. Any future commercial relationship beyond ordinary media use should be assessed against the specific service being offered, while the absence of a financial-license disclosure is not a fraud finding in this context.

EVIDENCE

- The homepage identifies categories for entertainment, culture, technology, lifestyle, food, videos, and podcasts.
- The site includes a “Contact Us” section and links to Instagram, Telegram, TikTok, and Castbox.
- Hosted on AS24940, HETZNER-AS — Hetzner Online GmbH, DE.
- TLS certificate issued by YR2, DV validation, valid to 2026-10-26T04:33:56+00:00.

What to Verify Next

For any engagement beyond reading and ordinary account use, confirm the relevant business details through the site’s own contact and legal materials, and independently authenticate official communication channels before entering into a commercial arrangement. If a regulated service is later offered, verify the provider and authorization directly with the applicable jurisdictional registry.

EVIDENCE

- The homepage provides a “Contact Us” entry for official site contact.
- The site’s visible content is categorized as an informational/news magazine rather than a financial-service portal.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

Summary Verdict

The website presents as a legitimate, established, and trustworthy editorial publication. Its identity, content model, historical continuity, technical operation, and external reputation converge without contradictory signals, supporting normal interaction including account login and standard use.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure, with observed traffic associated with a single edge address and no directly observable origin candidate. This reduces direct origin exposure and is a mitigating security characteristic, although infrastructure protection alone does not establish legitimacy.

Closing Assessment

Normal browsing, login, and standard site interaction are appropriate; any separate commercial engagement should follow ordinary independent business verification procedures.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of faramedia.co.

- The request stayed on faramedia.co. It was not redirected to another domain. CLEAR
- Registration is published under Atak Domain. CLEAR
- DNS for this domain is served by hostdl.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-28. NOTED
- The earliest public archive of this site is from 2019-08-17. CLEAR
- It is hosted on HETZNER-AS, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about faramedia.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
