Full analysis

Overview

farh-travel.com is an Arabic-language travel listings and advertising website presenting Hajj and Umrah campaigns, regional travel offers, Iraq and Gulf trips, short excursions, and tourism promotions. Its apparent business model is to aggregate and publish third-party travel advertisements rather than operate as a direct booking platform.

Scam/Impersonation Risk

No contradictions were observed across the captured website and available external signals: there were no phishing, impersonation, malicious-content, or confirmed blacklist indicators. The homepage presents a coherent travel-listing purpose, with dated offers and prices, while the captured site contains no login form, sensitive submission form, wallet interaction, or external payment workflow. The real-world operator is not independently verified, so the site's apparent legitimacy should not be treated as proof of the identity of every advertiser featured on it.

EVIDENCE

- The homepage is titled “خدمة فرح لإعلانات وعروض السفر والسياحة” and presents categorized travel and pilgrimage listings.
- The homepage capture contained no login form, sensitive form, hidden form, or external password submission.
- The domain was registered on 2018-10-10 and is approximately 7.86 years old; the registrar is HOSTINGER operations, UAB.

Regulatory Verification Notes

The site's content is consistent with an advertising and listings service, but the captured material does not clearly establish a corporate legal identity or display a licensing or registration number. This is a transparency and verification matter rather than evidence of a scam, particularly because no contradictory identity or threat signal was observed. A separate broker-reputation dataset produced no match, although that result has no legal or regulatory significance.

EVIDENCE

- The captured homepage identifies the service through its travel-advertising title but does not provide a clear corporate legal disclosure.
- No license authority or license number was stated in the captured website material.
- The site is served from AS47583 (AS-HOSTINGER - Hostinger International Limited, CY); the resolved infrastructure is associated with Ukraine.
- The site's TLS certificate was issued by YE2 at DV validation level and is valid to 2026-11-02T23:44:13+00:00.

What to Verify Next

Before a high-value booking or payment, independently confirm the legal identity and authorization of the relevant travel agency with the applicable tourism or pilgrimage regulator, rather than relying solely on the listing. Confirm the advertised itinerary, price, availability, cancellation terms, and payment recipient through an independently sourced channel, and use payment methods that provide documented consumer protection. The site's Instagram presence can also be cross-checked against independently verified agency accounts and contact details.

EVIDENCE

- The homepage publishes dated offers under named travel-agency and campaign references, creating a clear basis for counterparty verification.
- The homepage links to Instagram, providing a channel that can be compared with independently sourced agency information.
- The captured page is primarily an advertising directory and does not show a direct booking or payment engine.

Summary Verdict

The website has a **moderate, evidence-consistent trust posture** and is not assessed as a scam or impersonation site. Its established domain continuity, coherent business purpose, valid transport encryption, and absence of observed threat indicators support ordinary informational use, while the operator’s identity and the credentials of individual advertisers remain only partially established.

Infrastructure Integrity

The site is hosted on Hostinger infrastructure and resolves directly to multiple likely origin addresses, with no detected CDN or edge-IP layer. This reduces the benefit of intermediary traffic filtering and origin shielding, but it is an infrastructure characteristic rather than evidence of malicious activity.

Closing Assessment

Ordinary browsing is reasonable, but independent counterparty and payment-protection checks should be completed before committing funds or sensitive information to a travel offer.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about farh-travel.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
