Full analysis

Overview

FashionCadeau is a Dutch gift-card redemption website that allows visitors to enter a card number and PIN to redeem an existing card, with supporting FAQ, contact, ordering, legal, privacy, and cookie-management pages. Its apparent business model is branded gift-card issuance and redemption processing.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious reputation findings were observed. The homepage presents a coherent redemption workflow, identifies FashionCadeau consistently, and links to supporting terms, privacy, contact, and FAQ content. Although card-number and PIN submission is sensitive, the form has no untrusted destination, hidden form, external submission, wallet interaction, or other observed abuse pattern.

- The homepage contains one gift-card redemption form requesting a card number beginning with 60395 and a PIN.
- The homepage footer identifies Hawk Commerce B.V. and links to terms, privacy, contact, FAQ, and ordering pages.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The site provides legal terms, privacy documentation, cookie settings, accessibility information, and a named operating company in its footer. No financial-services license claim is presented, which is consistent with the visible gift-card redemption model but remains a disclosure point if the service is assessed under a regulated-goods or payments framework. The domain and public presence provide affirmative evidence of an established operation, while the available third-party broker context contains no match.

- The homepage links to “Algemene voorwaarden,” “Privacy Policy,” “Website Terms of Use,” and cookie preferences.
- The footer states “© 2019. Alle rechten voorbehouden. Hawk Commerce B.V.”
- The domain was registered through team.blue nl B.V. on 2009-07-13.
- The site is within the global top 1 million by traffic, with a recorded rank of 138242.

What to Verify Next

Confirm that the relevant gift-card issuer or merchant independently recognizes FashionCadeau as its redemption channel, and review the terms and privacy pages for redemption limits, expiry rules, dispute handling, and data-use conditions. Where a regulated payment or stored-value framework applies, confirm the responsible entity against the relevant official registry.

- The homepage provides direct links to the FAQ, contact, terms, privacy, and ordering pages.
- The redemption process is limited to one card-number-and-PIN form.
- The legal footer identifies Hawk Commerce B.V. as the named operating entity.

Summary Verdict

FashionCadeau presents as a legitimate, established, and trustworthy website with a coherent business purpose and no observed contradiction or abuse signal. Normal interaction and standard use are appropriate.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure, with the observed address belonging to Amazon-hosted edge infrastructure and no origin candidate exposed in this analysis. This provides a meaningful defensive layer against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

- Served from AS16509 (Amazon.com, Inc., US).
- TLS certificate issued by YR1, using DV validation, valid to 2026-10-03T12:01:49+00:00.
- One observed edge IP was recorded: 52.51.132.106.
- Archive history contains 73 snapshots spanning 2018–2026, across 9 tracked years.

Closing Assessment

Prospective users may proceed with ordinary redemption and account-related interactions, subject to normal commercial review of the applicable terms and transaction details.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fashioncadeau.nl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
